Comments: Great Burn

July 30, 2014

Dear Supervisor Brazell,

I want the Great Burn to be Recommended Wilderness because it is one of the last wild places. I have recreated there for the past 50 years and it's peace and quiet and wildlife continue to draw me. I want it to remain for my grandkids the remote paradise that it has been for me.

Please eliminate Option B which create unenforceable boundaries for motorized in the Recommended Wilderness.

Only Option A will guarantee that this area will remain serene and peaceful for the many species of wildlife that remain there. It will also guarantee a serene and restful place for all of us who love this area and want it protected for further generations.

Someone has to take a stand for the voiceless. I sincerely hope they can count on you.

Thank you for your consideration,

Christina Kappes
