Comments: Great Burn Roadless Area

I am opposed to motorized use in the Great Burn Roadless Area. I have been a user of the backcountry trails and lakes for nearly 40 years and plan to continue to use the area for backpacking and fishing. To allow access for motorized vehicles would turn it into one more over-used, burned out, wreck of an area that so many of our wild places have become. I strongly urge you to grant the Great Burn wilderness designation.

Thank you,

Collin Leach
