First name: Jim

Last name: Fazio

Organization:

Title: Mr

Comments: Hungry Creek should become the Lewis and Clark Wilderness area. It is roadless and meets a 5,000 acre minimum. It would be the only segment of Wilderness crossed by the L&C Trail and it has historical significance as well as wildlife habitat. The area is more than the route shown on one of your maps. Also, why is split creeek drainage not included as wilderness?
