Title:

Comments: Eliminate Option B which creates a motorized recreation management nightmare for the Nez-Perce-Clearwater and Lolo National Forest by creating unenforceable boundaries in Recommended Wilderness. How will you enforce the boundaries with Lolo National Forest Option B?

Support Option A for the Hoodoo Roadless Area which guarantees traditional quiet recreation opportunities. Why change a designation that has been around for 40 years? how many people would this change actually benefit?

Thank you for your time.
