I would contact the District Ranger, he can send your concern to the appropriate person. I don't work on the District, and am only helping with this project. So unfortunately I don't know who to refer you too.

District Ranger contact info is:

Marc Stamer
District Ranger

Forest Service

San Bernardino National Forest, Mountaintop Ranger District

Hi Zoot,

I have forward your comment to the District Ranger.

This project proposes to remove hazard trees, and is still in development. We don't know if the current proposal will be what we end up implementing, as we haven't fully engaged the public. So I can't answer the question about whether or not the project would help with your specific issue at this time.

If you feel this tree is a hazard to your dwelling, I suggest you contact the District directly and not wait for the project to conclude. Please submit any other info you may have to guide the project development to this email address, as the public helps us to better develop our projects. Also, I have let the District Ranger, Marc Stamer, know of your concern so hope that you will be contacted shortly. Please also, do follow up directly to ensure that your concern is not missed.

Sincerely, Beth

The contact info of the District Ranger is:

This is my address in Deer Lodge Park. My house backs up to national forest. About 20 feet behind my house is a large pine tree that burned in the fire and has been riddled by woodpeckers. I am worried about it falling on my house as it is half dead. Will this project help me with this issue?
