Subject of comment: Areas D2\_5K8 - 8427ac and D2\_ADJ2 to be taken off as wilderness which includes roads 453, 453B, 501 and 193

We elk hunt in all of these areas. We want to be able to drive into the mountain on side roads to retrieve our game.

We also take quiet drives in all these areas throughout the year. We enjoy the peace and quiet, seeing the wildlife, and the beautiful views. But to do this we drive off the main road into side roads that are for vehicles.

We also ask that not all sideroads be changed to trails.

We also ask the Forest Service to maintain roads 501 and 193.

We feel sort for visitors who travel on road 193 to Gooseberry Trail. The road is pretty bad and some people only have cars.

We have driven on road 193 to Horace Mesa and road 501 to the microwaves. We've had to turn back because the roads are so bad.

We ask that the areas on the map D2\_5k8-8427ac and D2\_ADJ2 which includes roads 453 453B 501 and 193 be taken off as wilderness!
