Subject of Comment: Wilderness Study Polygon D2\_ADJ2

Wilderness Polygon D2\_ADJ2

Lucero's need a road from 239 to the Privet Prop. Sec 5 and Sec 33. To manage the Los Indios Allotment.

There is one water well and two springs that need manantes from time to time.

There is one test well also.

There is 4 dirt tanks that need to be cleaned out in order to hold water for livestock and wildlife. Need to be cleaned out with a michane.

There Forest Service has had a study to clear the canopy cover for over 15 years. They were to start 2015 now they want to make it wilderness, spent thousand of tax payer doller. Cerro Chevito, Cerro Colorado.

#1 test well D2-5K10 20,251ac
