Your Comments:

I am writing to voice my support for moving the bike trail currently laid out on existing Forest Service roads along the Continental Divide National Scenic Trail (CDNST) to the new single track recently built for bicycles. Too many roads are being illegally closed by the Forest Service and BLM on state lands without the mandated coordination with local governments. Roads are good for multiple reasons and the phony excuses regularly offered by federal personal claiming wildlife habitat is being adversely affected is demonstrably false. We have no shortage of wildlife and the people who live here know this.  
David Dove
