Comments: I am writing to comment on the Foothills Landscape Project. I am an avid hiker in these northeast Georgia mountains and have an interest in seeing them taken care so that future generations may enjoy them as

The thing that jumped out at me right away was the size of the area of the Project. I think it would be better to reduce the size of the area and note the specific areas targeted for treatment.

There appears to be a heavy use of herbicides throughout the entire project and an excessive amount of land set aside for timber harvest.

I am in favor of the road closings proposed.
