Comments: One of my favorite photos of Golden Peak was used by the Vail Homeowners Association. (Click on my Photo to Enlarge it) What we (local skiers/boarders know for sure) is the price of our EpicMix Pass keeps going up (Vail parking still stinks)...meanwhile there is a ski proposal to (in effect) shrink the size of the publicly (always) available ski terrain on Vail Mountain. The regrettable ski fact is...that portion of Golden Peak is (too often) dedicated to the (exclusive use) of ski racers and competitive boarders. As a practical matter...Why would local skiers/boarders support an agenda by (what amounts to a special interest group) to further shrink the (always publicly available) ski terrain on Vail Mountain? No Thanks! Too little "Public Benefit" .
