Comments: I am formally objecting to the proposed reroute of the Superior Hiking Trail in regards to the proposed project. As currently defined, the reroute would render a large section of the trail mostly unusable during long stretches of the year. It should be noted that I don not object wholesale to the expansion proposal, as I understand and fully support the need for an expanded economic base. That said, I feel the damage caused by the Superior Hiking Trail reroute, as proposed, would significantly offset any gains made by the Lutsen resort. I fully support the rerouting proposal put forth by the Superior Hiking Trail Association; I have attached a copy of their response as well. Thank you.
