Subject: Lutsen Mountain Ski Area Expansion Project

I was born in the area close to Lutsen and raised in the area . Went off to other parts of the country for my career. Returned home to retire at age 58, over 20 years ago.

What a travesty if you allow 400 acres of forest to be destroyed in order for Lutsen Mountains to double the number of ski runs. They now have 95 runs. When will it be enough???? Let's try to keep some semblance of the old forest available. My family, father and his family, were loggers. They planted 3 trees for every one they cut down. Let's not cut down 400 acres to create bare slopes. Also, what about having to put in new roads and all the runoff that will occur.

Please think carefully before making this decision.
