Comments: Growing up in Idaho, I saw headlines about a company that was going to expand mining in Idaho and the last thing I would want is another large miner or other company to further destroy our beautiful land. I have followed the project and researched extensively. I do believe that Midas has begun and will continue to bring back the beauty of this area in Idaho as well as providing much needed economic growth for the community and state. I am a concerned American about the future of our country and the future of our planet. I fully support Midas in their efforts to mine for much needed resources for our country and the need to produce within our own borders. And, at the same time continuing to improve the environment and economy. And what better state than Idaho to support this plan!
