Comments: Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of Midas Gold Idaho's Draft Environmental Impact Statement. Public participation is a huge part of the permitting process and I appreciate the opportunity to share my thoughts.

Midas Gold and the Stibnite Gold Project is a win win project with must needed job creation for rural Idaho, American mineral independence, and restoration of wild life habitat destroyed during past mining practices.

I hope the permit process is favorable to allow Midas Gold to proceed as this project is good for Idaho, good for America, and great for the salmon!
