Comments: Linda Jackson,

Jobs jobs jobs, this area would benefit greatly with jobs provided from this project, not only in the mine, but support from the surrounding area. this would bring much needed financial benefits to the area and all of Idaho.

With the restoration of fish habitat, and cleaning up of problems left by previous operators. As a hunter, fisherman and user of the outdoors. I can see no downside.

I very much support the Stibnite Gold Project.

Name: Ron Smith
