Comments: I am writing to share my support of the Stibnite Gold Project as outlined in Alternative 2 in the Draft Environmental Impact Statement. Here is a little more about me, and why I believe this is the right project for Idaho and the country.

For nearly 30 years I have been a frequent visitor to the natural beauty of the Idaho backcountry. I've come to know and love many people and communities in the Idaho backcountry. A project of this significance will leave a positive footprint for a generation. I support this project because fundamentally it is a net positive for the people and communities of this area.
