Comments: The Stibnite project presents a unique opportunity, one that only comes along once in a lifetime. Here it is, an opportunity to use private funds to clean up a historic brownfield, restore fish habitat, and restore the waterway.

Idaho needs modern mining practices and the jobs that it provides. Idaho needs an example of a company that is vested in creating positive outcomes for all parties involved. Alternative 2 provides a plan that takes into account the multiple issues of the site, the concerns of the community, and provides a path forward.

I urge you to accept Midas Gold[rsquo]s plan as outlined under alternative two. The U.S. Forest Service has provided the public with helpful virtual tools and materials to submit meaningful comments on the project within the allotted timeframe. It is time to move this project forward.
