Comments: The roads/trails marked in the attached file are all part of the See and Ski winter XC trails. In the summer they are used by horse riders, mountain bike riders.

This area is quite popular with boon dock campers and this has created many problems with litter and camp fires that have been left burning. It would be much better if the old logging roads in the parcel could all be gated so winter access and summer access by non-motorized users could be maintained and the erosion / run off impacts could be minimized
