Comments: I suppose the Lutsen expansion project Proposed Action Alternative 2. I believe that Lutsen Mountain has proven to be a viable and beneficial asset to the North Shore. Most negative comments concern the Superior Hiking Trail (SHT). From my perspective, the SHT already passes along and past the Lutsen Mountains ski trails and lifts. Adding a few more trails and lifts along this stretch of the SHT would barely impact the SHT. I also think that the "Project" SHOULD include funds and a plan to reroute or improve the SHT, as needed, where it intersects with Lutsen Mountains.
