Comments: Sequoia Forest Plan Objection

Objector:

Alan Carlton

Sequoia Forest Land Management Plan

Theresa Benson, Forest Supervisor

I object to the Forest Service's failure to recommend the following areas for wilderness designation as set forth in the original Alternative C. Wilderness is the best possible protection for these roadless lands, which meet the Wilderness Act definition of areas "where the earth and its community of life are untrammelled by man, where man himself is a visitor who does not remain."

Lucas Creek

Lightner Peak

Mill Creek

Oat Mountain

Cannell

Chico

Bright Star Additions

South Sierra Additions

Golden Trout Additions

Domeland Additions

I also object the Forest Service's failure to recommend the following areas be designated as Backcountry Management to protect their undeveloped resource. These areas were identified in one of the alternatives but not included in the adopted Forest Plan.

Saturday Peak

Sunday Peak

Lumreau Creek

The objection is that the above areas meet the requirements for wilderness recommendation or Backcountry Management but were not so recommended. The objection is furthered by the later commenced 30 by 30 campaign, which emphasizes the need for proper protection of undeveloped lands.

I set forth these proposals in my letter of November 26, 2014 attached.
