To: Dr. Homer Wilkes, Under Secretary, U.S. Department of Agriculture. George Washington & Jefferson National Forests

Dear Mr. Wilkes and To Whom It May Concern:

On behalf of Preserve Monroe please accept these comments and supplement attachments concerning Mountain Valley Pipeline, LLC to cross the Jefferson National Forest and the Appalachian National Scenic Trail. We respectfully ask that the U.S. Forest Service select the 'No Action' Alternative and reject the Forest Plan Amendments and MVP's request to cross the Jefferson National Forest. The Mountain Valley Pipeline project as proposed is inconsistent with the Forest Plan. It cannot meet the Plan's standards for environmental protection, which should not under any circumstances be weakened.

Please see our letter and supporting documentation attached below

Sincerely,

Roseanna Sacco, Chairman
