Comments: February 21, 2023

Dr, Wilkes.

On behalf on Preserve Bent Mountain, enclosed please find Comments of Preserve Bent Mountain concerning the Draft Supplemental Environmental Impact Statement. Based upon these Comments, we respectfully request the Forest Service to revise and correct the DSEIS and with that, to choose the No Action Alternative. We ask the Forest Service to not proceed with proposed amendments to the JNF plan to allow the MVP to cross the Forest, and to not provide concurrence to the Bureau of Land Management (BLM) for a right of way and temporary use permit.

We appreciate your time and consideration in review of our materials submitted here.

Sincerely,

Tom Bondurant
