Comments: Jonathan,My name is Deb Manning-Kropp and I own the Eagles Landing lodge just south east of the proposed drilling site. If the drilling is to begin in May 2023, I believe you will need adequate lodging. I, like most of the town of Custer is opposed to the drilling so close to our tiny community and worry about the possible environmental damage. If we do really have no power to stop the project, I'm proposing that the 12 bedroom lodge may be a good foundation for your crew and someequipment on the 4 acres. If there is interest in purchasing our lodge, please call me at *redact*.Thank you,Deb Manning-Kropp
