First name: Michael

Last name: Kear

Organization:

Title:

Comments: I moved here to Custer , for the beauty of it and feel that the exploration of gold in the area would have a negative impact,, the area of proposed drilling, a walk in area for wildlife, if vehicles are not allowed on the road,, why is this area even allowed to be thought of for a wreck less operation to adulterated for a out of state company,, second concern is water pollution of French creek, and excessive traffic into the sacred area,, The F[mdash]3 gold company does not care ,, I do and pray that you do,, Mike Kear,, Custer resident,
