First name: Trudy D. and Joseph

Last name: Jara Jr.

Organization:

Title:

Comments: The time has come to stop mining the Black Hills and to allow future generations to see them as they are . . . not as mining sites continue to destroy the beauty we see.

It is time to recognize that there will be only so much clean water for our future generations. Stop allowing big business to use our clean life supporting water for drilling.

Our Grandchildren's future depends on our planning for them to have clean air and water and beautiful places to raise their children.

Now is a good time to learn to say, "NO" to mining in the Black Hills for their future.

Please say NO, Trudy D. and Joseph Jara Jr.
