From attached letter:

Hello USFS [ndash] Gunnison Ranger District,

Thank you for the work you do and for the opportunity to provide input on the NVTP.

We have been connected with CBMBA for many years and based on 1st-hand experience, have a good feel for the thoughtful planning and conscientious, beneficial work they do. In their current proposals they shown a sensitive consideration towards the various stakeholders, the environment and user safety. With the huge increase in motorized traffic we[rsquo]ve experienced in recent years, the element of safety deserves a higher priority than it has been given in the past.

In light of CBMBA[rsquo]s very positive track record we offer our support for each of their recommendations.

Thank you for your time in considering our comments.

Best Regards,

Bob and Linda Colvey
