Comments: Spearfish Canyon is 26 times older than the Grand Canyon! Imagine the people it brings each and every year, therefore bringing in revenue for Spearfish and surrounding areas. This is SACRED land, period. The damage to wildlife, water sources, and sacred beauty is immense.
Jobs are NOT created long-term. This is short-term leaving unemployment and devastation behind. Who visits Lead, SD? Who visits Gillette, WY?
My grandchildren hike and live here. Don't contaminate their water and kill their wildlife!
