What issues or changes have you noticed regarding this resource? -the sudden Aspen Decline seems to have arrested regeneration & is happening in the Ouray district forests south of Ridgway / they'd
I do not see a need to "treat" aspen stands at this time

What is or isn't working regarding this resource and current management? I oppose the cutting of spruce/fir forest to feed the timber mill in Montrose. I favor the salvaging of conifers to protect human health / (ensure safety) and protect infrastructure but want the salvaging operations to be limited to parking lots, trail-

What suggestions do you have to improve management of this resource through the revised Forest Plan? heads, campgrounds etc. I oppose the construction of new roads even if temporary to salvage. I support "treatments" that build ecological resiliency + improve ecosystems but that does not include road building. THANKS!
