What issues or changes have you noticed regarding this resource? ~~There~~ general change in use of FS land from resource extraction to recreation. Different
new types of recreation require accommodation. ie: mtn bikes.

What is or isn't working regarding this resource and current management? The current trail system was built out of necessity, mostly driven by resource extraction. Considering the shift to more recreation use, this A to B style of system isn't as appealing ~~as it should be~~ ~~as a system designed for recreation purposes~~ ~~as a system designed for recreation purposes~~

What suggestions do you have to improve management of this resource through the revised Forest Plan? Modify the existing trails to provide a better user experience for recreation. This can be done while addressing sustainability issues - wsn - wsn.
