What issues or changes have you noticed regarding this resource? Lack of available
multi use / mountain bike trails on USFS land. Of course
we have begun to build our relationship with you guys
and look forward to creating a remarkable resource that
can help attract people to our very special home.

What is or isn't working regarding this resource and current management? You guys are listening!
And we are ready to get to work planning, building
and promoting! We've built 26 miles already w/ BLM
and it has done wonders for our local economy. We hope
to add miles more of high alpine terrain

What suggestions do you have to improve management of this resource through the revised Forest Plan? Increase communication, planning, funding, repeat!
I think this is the start of an amazing prog
of responsible development in the San Juans.
