What issues or changes have you noticed regarding this resource? Disturbing denial of reality and data. Degradation of the forests of Colorado in my lifetime, including the spread of the pine bark beetle, ~~and~~ increased wildfire effects, and expanded oil and gas drilling.

What is or isn't working regarding this resource and current management? Thank you for acknowledging climate change. I hope you as individuals will do what is best for our forest and world, and will not lie down in obedience to the current administration.

What suggestions do you have to improve management of this resource through the revised Forest Plan? _____

Consider climate change when new oil and gas lease applications come in, and do not erase the phrase from your literature.
