**Subject:** Fwpublic : comment on federal register - same old all out war on the forest - logging, thinning burning chemical applications - its war on forests by usfs

the forest service has come up with the same old war on forests and wildlife in this plan. log it to death. thin it to death. new roads all through it to destroy it through human use. burn it up. chemically attack it. how can wildlife or trees sustain and live from an attack by the forest service like that. how do we stop this enemy of all nature? i am writing in my disgust at yet another devastation plan for another forest owned by this nation of 328 million people who recognize the importance of preserving nature. it is our lives at stake here. actually it is. when we poison and kill all nature, we kill ourselves. we must stop this vile, deplorable, evil, wicked agency and do it now. their plans suck. this comment is for the public record. please receipt. jean public [REDACTED]
