

## Flathead River Wild and Scenic River Comprehensive River Management Plan: Scoping 2019

**Comment Sheet:** Please use the space below to record any additional comments you would like to submit to the agencies related to the Three Forks of the Flathead River Comprehensive River Management Plan (CRMP).

You may drop this sheet off at the meeting tonight, or mail or bring it to the Flathead National Forest Supervisor's Office: 650 Wolfpack Way, Kalispell, MT 59901. More details on submitting comments are included on the back of this sheet.

You are doing these proposals backwards you need to start at Blankenship Bridge and work backwards to improve all conditions. If you do not do this you will have to live with poor fishing experiences and an over population of floaters while you think you are improving conditions on the Middle + North Fork of the Flathead. I have not fished the Middle Fork because of the poor fishing and I had great ~~times~~ in the 70's + 80's I fly fish the North Fork once or twice a year and I have yet to go this year because of the poor fishery. Floaters have caused you need to regulate all floaters local, fishing guides, and Park services if you want to improve anything with fishing.
