First thanks for having the meetings. I do not think we need permits yet. We float the north fork Ford to Polebridge at least 4 times a year and at most we see only 3 or 4 groups. I think if you put up some educational and info signs at the put in spots should be the first course of action. we also float from Glass Run to Blankship. We do see a few more people but have never had a problem. I think the put in spots should be improved so that there is no bottle neck with rafters getting in.

Thanks
