Comments:

I and my neighbors and family across the country STRONGLY OPPOSE the proposed rule changes. Congress and prior executive leaders INTENDED to make our national forests a public good, NOT for private exploitation of minerals, oil or other extractions for private company wealth accumulation. Please do everything you can to make it HARDER for any private gain from the public tax dollar investment we and generations before us have made to protect and preserve our forests. Shame on those who initiated this effort.
