This a problem. The culprit here is dual-citizen and neocon snake Kushner. He has many shares in the involved mining company and is clearly responsible for much of the Israel-first foolery of the administration (like Syria strikes). Netanyahu has stayed at the Kushner household many times. Leave it to someone with a spare country to not care what happens to our land and water!

American water and American forests for Americans!

The point of the public lands management system is to preserve and conserve natural resources for AMERICANS, not irreversibly contaminate it for foreign interests.
