President Tiny Hands keeps changing his mind on whether his kleptocracy intentionally separates immigrant children from their families. But with midterms approaching he's decided that this policy will play well with his nationalist base:

"If they feel there will be separation, they don't come." - President Tiny Hands, October 13, 2018

The orange dumbsicle is also rallying his misogynist supporters by claiming that in the #MeToo era it is men, not women that need protection:

"It is a very scary time for young men in America when you can be guilty of something that you may not be guilty of." - President Tiny Hands, October 2, 2018

In contrast it's a "great time for women."
