

TO WHOM IT MAY CONCERN,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to adopt the proposed activities outlined in Alternative 2 during the permitting process.

The Stibnite Gold Project is good for the Idaho workforce. Midas Gold's strong commitment to hiring locally and using local vendors and suppliers helps build our economic base. The salaries of the positions at the Stibnite Gold Project will be approximately two times higher than typical jobs in Valley County. The financial security and on-the-job training opportunities these positions bring has the potential to bring meaningful change to families throughout the region. I'm young and cannot find a job that offers any type of benefits, how do I ever raise a family in this town? We need jobs that offer this type of training and growth potential for the young people here. Most of us move away because we want opportunity, this would provide that opportunity. Additionally, we know mining brings more than jobs and robust wages to our state, it promotes the development of secondary businesses and the production of more goods and materials right here in Idaho.

I urge you to approve the project as outlined by Midas Gold in alternative 2. The Stibnite Gold Project will provide a huge benefit to our community and the local environment.

Sincerely,

Matt
