

Dear Ms. Jackson,

It is with great pleasure that I write to the U.S. Forest Service to encourage you to permit the proposed activities outlined by Midas Gold in the Plan of Restoration and Operations during this public input process.

Restoring the Stibnite Gold Project site will be an incredible investment. Work clearly needs to be done in the area but it should not be funded through taxpayer dollars. Fortunately, Midas Gold Idaho wants to make the investment. The company is proposing a mining project and full-scale restoration project. They have plans to reconnect fish with their natural spawning grounds, properly reprocess and safely store old tailings and solve sedimentation issues.

I have been a life long valley county resident and have watched this project unfold and I am excited for it to move forward.

I encourage the USFS to move the Stibnite Gold Project forward and permit Midas Gold Idaho's project as outlined in their Modified Plan of Restoration and Operations, alternative 2 in the DEIS.

Best regards,

Kendra Brown
