

Attention payette national forest supervisor,

I have reviewed the Plan of Restoration and Operations and met with members of Midas Gold Idaho to better understand the company's plans for the Stibnite Gold Project. Below are my comments on the plan to be included in the comment period.

Midas Gold has made it clear reclamation efforts will start alongside operations. They have worked to find safe access routes to the site that keep vehicles away from our precious waterways. Plus, the company is trying to minimize their impact on the environment by keeping facilities within the existing footprint of historic mining operations.

Midas Gold wants to restore the rivers, wildlife and habitat near the Stibnite Gold Project site. We should let them. Please permit the Stibnite Gold Project and continue to move this important project forward.

Most Respectfully, Emily Jones

Name: Emily Jones
