

TO WHOM IT MAY CONCERN,

I am writing to encourage you to permit the Midas Gold Stibnite project as quickly as possible. I have followed this project for several years. Clearly significant environmental damage occurred from previous mining activities. The blight left on our Idaho beautiful landscape was significant.

This is a monumental opportunity to clean up the previous waste and environmental damage through the use of private funds. The benefit of well-paying jobs and significant tax revenue is a secondary benefit of this project. This is a once in a lifetime opportunity to restore clean water streams and Salmon spawning habitat.

I fully support the Midas Gold opting # 2.

Thank you for your time and consideration.

Warm regards,

Boyd A. Critchfield
