

Dear Permitting Officials,

Thank you for the opportunity to provide my feedback as part of Midas Gold Idaho's public permitting process.

I have reviewed the Plan of Restoration and Operations and I believe the Stibnite Gold Project is an opportunity to repair the environment and bring an economic boost to the community. As proposed in Alternative 2, the project finances environmental reclamation and provides the workforce and resources necessary to complete it. If Midas Gold isn't allowed to move forward with its plan, this area in Idaho's backcountry will continue to suffer. Currently, salmon are being blocked from their native spawning grounds and hundreds of tons of sediment are pouring into the watershed each year. It is time to address these issues and Midas Gold has the right plan to do it.

After reading my letter, I hope you can see why you should permit the Stibnite Gold Project. This project is a good thing for Idaho, helps decrease America's dependence on foreign countries for critical minerals and cleans up the environment.

Respectfully,

Joey Falcone
