

Dear Payette National Forest Supervisor,

I am writing in support of the Stibnite Gold Project and the benefits it will bring to Idaho. This project has the potential to put hundreds of Idahoans to work, bring a \$1 billion investment into our state and restore an area of Idaho's backcountry desperately in need of repair.

I have reviewed the Plan of Restoration and Operations and I believe the Stibnite Gold Project is an opportunity to repair the environment and bring an economic boost to the community. As proposed in Alternative 2, the project finances environmental reclamation and provides the workforce and resources necessary to complete it. If Midas Gold isn't allowed to move forward with its plan, this area in Idaho's backcountry will continue to suffer. Currently, salmon are being blocked from their native spawning grounds and hundreds of tons of sediment are pouring into the watershed each year. It is time to address these issues and Midas Gold has the right plan to do it.

This project is a huge opportunity for Idaho. I encourage the U.S. Forest Service to permit alternative 2 so this brownfield site can finally be restored.

Thank You,

Name: Melisa Armand
