

Dear Payette National Forest Supervisor,

I am going into 9th grade at McCall-Donnelly High school in a few days.

I am writing to share my opinion on Midas Gold 's project in Stibnite, Idaho. There are many reasons why I am excited for Midas Gold's project to happens and I hope through my comments you will understand why.

1) I think having a place to work after high school or college graduation back in my hometown of Donnelly would be really great. It's needed. Right now, there are just service jobs at restaurants, ski resorts and hotels for kids who don't go to college. For college graduates there is not much either, and if you get a job, it's hard to afford a place to live with the kind of jobs here. The fact that Midas will bring jobs, more businesses etc. to the area really makes me feel that me and some of my friends can come back here and getter better paying jobs someday and not just when we are 60 and have made our money in Seattle or someplace. I love it here and want to come back after college and so do a lot of kids that I know.

2) Midas Gold wants to restore the rivers and wildlife like fish near the Stibnite Gold sight. We should let them. It's a total mess right now.

Please permit the Stibnite Gold Project.

Thank You,

Cassidy Justice Crockett
