

Attention Linda Jackson,

Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of Midas Gold Idaho's comment period.

My job and many other jobs either directly or indirectly rely on new quality mining sites opening up and being productive. Projects like this one contributes to the national GDP as well as local economies. I highly encourage the U.S. Forest Service to permit this project, using the alternative two presented by Midas Gold, as quickly as possible.

Regards,

Jim E Marriott
