**Re: Tonto National Forest Plan Revision - Interested Person Request**

On behalf of Pinto Valley Mining Corp. ("PVMC"), I am writing to request a meeting be held to resolve PVMC's filed objection on the Tonto National Forest ("TNF") Land Management Plan Revision and that PVMC be granted "interested person" status relative to the consideration of other certain objections pursuant to 36 C.F.R. § 219.57.

The contact information for PVMC is as follows:

Pinto Valley Mining Corp.  
P.O. Box 100, 2911 N Forest Service Rd 287  
Miami, AZ, 85539  
Attn: Tim Ralston, Manager, External & Regulatory Affairs  
Telephone: 928-473-6302  
Email: [tralston@capstonecopper.com](mailto:tralston@capstonecopper.com)

PVMC has an interest in issues submitted by the Sierra Club, et al (dated September 6, 2022). The Sierra Club objection raises issues related to plan components associated with exploration and mining (pgs. 28-32) and Riparian Ecological Response Units (pgs. 45-46) that PVMC opposes and has addressed in its own filed objection.

PVMC has participated in the TNF planning process since its inception including participating in public workshops and meetings, submitting comments on the preliminary proposed TNF Land Management Plan Revision and the 2020 draft TNF Land Management Plan Revision and draft environmental impact statement and the filing of a formal objection on September 6, 2022.

We appreciate consideration of PVMC's meeting and "interested person" requests. PVMC's "interested person" status request in no way nullifies or diminishes its participation in the objection resolution process as a qualified objector. In the event you have questions about the foregoing or wish to discuss schedule availability please feel free to contact Tim Ralston using the information included above.

Sincerely,  
FENNEMORE CRAIG, P.C.

Dawn Meidinger
