

A huge number of open questions remain around this proposal. Please answer the following:

Overall Project: What are the anticipated internal Forest Service milestones for review process? When will additional information be made public?

Immediate proposed development Impact:

1. Why is the land area in the lake property from the 2017 SUP permit currently in place being expanded from 10.53 acres? WGP proposed plan shows this as 14.16 with obvious extensions. Please provide written documentation of the historic base for this expansion.
2. With the replacement of the forced main to accommodate this expansion, will the campground be closed for any time period?
3. With the vastly expanded traffic and parking, what measures are in place to prevent fuel spills and/or sewage spills from infiltrating the shallow water table.

Public Access:

1. Will the public be able to freely access the lake property from the lake, and freely traverse through the lake property to the trailhead above? The MDP map shows trails with gates. What will the new proposed operating agreement allow/require for public access?
2. For accommodations, what segment of the public will this serve?
 1. Please provide anticipated full season rates for dual occupancy in a "Bunkie", four adults in a Cabin, and dual occupancy in a Lodge room. Please note any significant add ons such as the additional cost per person in a current room and the current 20% automatic service charge added on.
 2. Please provide a sample anticipated cost in dining room for dinner. And please also provide an anticipated cost for a beer on tap or a glass of house wine.

Recreation

1. POWDR is in the business of creating and supporting high impact recreation.
 1. What are anticipated recreation activities that are anticipated to be offered directly or in association with Holland Lake Lodge in the next five years?
 1. Heliskiing? Any other helicopter based sports?
 2. Snowmobiling?
 3. Mountain biking? Are new trails anticipated?
 4. Outfitting
 1. Horseback rides
 2. Hunting
 5. Kids adventure camps
 6. Rafting operations (scenic or whitewater)
 7. Adventure or Outdoor competition events
 8. Alpine rollercoaster
 - b. What are anticipated recreation business activities POWDR expects to offer in Montana in the next five years?
