

Fight like you live here.

Dear USFS,

The Mountain Valley Pipeline (MVP) is a climate and ecological nightmare. Construction has resulted in improper and inadequate sediment and erosion control practices, leading to more than 500 water quality violations in Virginia and West Virginia.

Federal courts have found that the U.S. Forest Service has not properly reviewed the application for the MVP and vacated permits in the past. As the Forest Service reviews the MVP's environmental impacts once again, it must consider the climate disruption it would cause to the Jefferson National Forest – including threats to water resources.

Granting the Mountain Valley Pipeline permission to cross the Jefferson National Forest does not comply with the 2012 USFS Planning Rule's mandate "to maintain or restore the ecological integrity of terrestrial and aquatic ecosystems and watersheds in the plan area."

I urge you to select "Alternative 1 – No Action" because the Mountain Valley Pipeline is completely inconsistent with the JNF Forest Plan and would require 11 amendments and exceptions to be made for the project.

Signed,

Food & Water Watch & supporters
