## Forest Service News Release

### Newark Project Scoping Comments Submittal Date Extended

Custer, SD March 8, 2023 – Due to public requests, the Black Hills National Forest is extending the date to submit Newark Exploratory Drilling Project scoping comments by 30 days. The Newark Exploratory Drilling Project scoping notice was released on February 8, 2023, inviting the public to provide their input, concerns, and suggestions to the Black Hills National Forest. "We know there is a great deal of public interest in this project and we want to ensure that there is sufficient time for us to hear from all interested people and organizations," said Rob Hulsebecker, Black Hills National Forest Supervisor. "While the deadline will be extended, we will still consider scoping comments at any time they will be most helpful if submitted by April 10, 2023. For more information about the project and to submit your comments, please go to the project website at <https://www.fs.usda.gov/project/newarkdrilling>. For more information on the Black Hills National Forest, visit [www.fs.usda.gov/blackhills](http://www.fs.usda.gov/blackhills).
