

Re: Pactola Reservoir-Rapid Creek Watershed Withdrawal #NP-3479

Although this is a good first step, I believe that the withdrawal needs to be larger. The areas to be protected encompass only lands in close proximity to Pactola Reservoir, many of them already protected by the Forest Service for recreational activities. The proposed 20,000 acres identified do not include most of the watershed and the 100s of mining claims above and below Pactola. This approach ignores where the water in Pactola comes from, and where it goes after leaving the Reservoir. It also ignores the fact that mining downstream from Pactola is as much a threat as mining upstream or adjacent to Pactola because of the interplay between surface and groundwater in the watershed.

Protecting the entire Rapid Creek Watershed is the effective way to protect cultural and natural resources and municipal water supplies for Rapid City and Ellsworth Air Force Base. Only protecting one reservoir from the potential pollution from gold exploration does not protect the water that flows into Pactola Reservoir, or the water that flows out as the sole drinking water source for surrounding communities. Whether communities in the Rapid Creek Watershed use private wells, municipal water systems, local water associations, or piped sources to the Ellsworth Air Force Base, they are not protected if only Pactola Reservoir is the site of mineral withdrawal because the surface water, reservoirs, and aquifers are all connected.

First Name	Last Name	City	State	Personal Message
Karin	Hemmingsen	Attleboro	MA	A much larger public benefit SHOULD outweigh the profit motive of a few corporations.
Claire	Lawrence	Fort Worth	TX	ABSOLUTELY NECESSARY TO PROTECT THIS BEAUTIFUL, VITAL WATERWAY AND RIVER! NO GOLD MINING!!
Brian	Ramsey	Pauma Valley	CA	Access to clean water is essential and should be protected.
Curtis	Tomlin	Chattanooga	TN	Act Now!
Sheila	Ireland	Omaha	NE	Air and water are the two most precious resources in the world. Life cannot exist without them. Yet we continue to treat water as if it is inexhaustible. How bad do water shortages need to get throughout the US and the world before we take action? The Forest Service should approve no proposal that jeopardizes the quality or quantity of any water.
Deborah	Parker	Bellingham	WA	Air, then Water. All life.
Wade	Johnson	Minneapolis	MN	All clean water needs protection.
Dean	Vogel	Davis	CA	All living things need clean water.
Nancy	Gehlhausen	Oakland City	IN	All of our natural resources must be protected rather than exploited.
Geoffrey	Michaelson	Waialua	HI	Aloha, You must act now!
Rhonda	Buttacavoli	Apollo	PA	Already, at present, our drinking water needs high-tech filtration and chemical treatments. We cannot close our eyes to protections for this vital resource.
Toddy	Perryman	Corvallis	MT	Already, there are more than 2 Billion people suffering from water scarcity. Fresh water requires a healthy ecosystem to aid in production. We have ignored the benefits of conservation of natural resources at our own peril.

jake	pardee	Casper	WY	Although I do not live in South Dakota but do live nearby in Wyoming. I think it is time the extractive industries take the time to study every aspect of how mining might harm the area, its citizens in and around Rapid City and their drinking water. As was seen in Flint Mich. what an entity does or does not do has an impact with legal ramifications and peoples general health down the road and into the future. In other words if peoples health is not taken into consideration in making these types of business ventures then the idea is not worth it in the first place.
Larry	Lighter	Idaho Falls	ID	Although it was some time ago, I have seen this area and it is beautiful. I would hate to it destroyed and the water resources polluted due to the consequences of mining. Combining the impact of weather changes and the impacts of development, it is essential that we protect the largest amount of land and natural resources that we can both for current and future inhabitants.
Jan E.	Vaughan	Seguin	TX	America must ALWAYS protect our fresh water sources!!!!
Kris	Peckman	Roanoke	VA	And don't forget, water is life! Prevent completion of Mountain Valley Pipeline.
Laura	Rosenberger Haid	Fresno	CA	Arsenic: A recent study has underscored the connection between arsenic exposure, insulin production and sensitivity and type 2 diabetes? https://mlink.news.easyhealthoptions.com/a/2240/click/10350/875896/880046c20e072015962b29e648761778ca668904/ab30c9e223e1b02950569e92b694599b6246dddf Water to drink, fish and farm with is more valuable than gold. Medical expenses of harmed residents could cost more than gold.
Paul	Brigham	Fairfax	CA	As a citizen and parent who cares deeply for our environment, I believe we must do everything within our power to protect it and its inhabitants for future generations.
Beth	Galbreath	Woodridge	IL	As a clergyperson and grandmother, I ask you to prioritize clean water over gold, people over profits, future generations over short-term gain.
Susan	Weikel	Fallon	NV	As a concern grows over the protection of our environment for future generations, this is a good time for you to step up and do ALL you can to help take care of our water resources!
Harry	Swope	La Crescenta	CA	as a doctor, I know that clean water is essential to good health.

Michael	Koterba	Redding	CA	As a hydrgeochemist for the USGs for a quarter century my career focused on ground and surface water quality and their interactions due to human activities. By far and away the lack of knowledge of how groundwater and surface water's interact with each other showed over and over again that failing to understand this led to the degradation of one or the other or both. Our country is littered with superfund sites from mining and chemical industries that were not required to adequately prevent surface and groundwater contamination as original companies sell off the mining operation or chemical plants long before the contamination is known and the fire reap the profits but pay nothing for the environmental degradation that costs millions in taxpayer dollars with limited actual recovery of aquatic systems. The cleanup costs run for decades with no end in sight. If there is not a detailed knowledge of the actual groundwater and surface water hydrology in terms of flow and quality require it
Juli	Kring	Houston	TX	As a mother and a grandmother, I am very concerned for the health and viability of the planet our children and future generations will inherit. We have a duty to our communities, families and most importantly, children to ensure their safety and well being through environmentally sound and sustainable policies, including clean air, water, addressing climate change, etc. That duty will always be more important than politics or profit.
Richard	Bell	Rapid City	SD	As a resident who lives in the Rapid Creek watershed, this issue is immensely important to me. And as a voting constituent, I will be watching closely how this issue evolves and vote only for legislators who will assist in protection measures.
Brad	Snyder	Maple Grove	MN	As a Science Teacher/Environmental Educator, Mechanical Engineer, and an Environmental and Natural & Cultural Resources Protection/Human Health/Public Lands Advocate, I wholeheartedly oppose mining in the Rapid Creek/Pactola Reservoir Watershed to benefit ALL life in this area!!
Mha Atma	Khalsa	Los Angeles	CA	As a very concerned US citizen and taxpayer I encourage the USFS and BLM to genuinely protect vital cultural and and natural resources on public lands!
Lars	Haarr	Flagstaff	AZ	As an avid outdoor enthusiast and birdwatcher I have seen firsthand the destruction the extraction industries have wreaked. All over the west, public lands that should belong to all Americans are sold to wealthy corporations, often to be destroyed for yet more profit. This theft must end!

Robin M	Baer	Lakewood	CO	As an environmental activist, I have fought for clean water, wetland restoration and many other issues. We've had some successes, but now these successes are threatened and the fossil fuel and other extraction industries want to have their way without restriction. Do not let this happen! Clean, safe water is in the interest of every living thing. {Please protect it!
Linda	Carroll	Spokane	WA	As an environmentally motivated voter and consumer who knows that water is life and that pollution introduced into water travels widely, I urge you to provide this river with full environmental protection.
Linda	Schneider	Arlington	VA	As discussed below, I don't think that it is a good idea to consider allowing mining in this precious area! The kinds of protections necessary to prevent harm probably aren't feasible, and the price of polluting and contaminating this area is simply too high! If we go down this horrible path, any gold we harvest, even if it supposedly is real, will really be "fool's gold!"
Evan	Elias	San Francisco	CA	As the climate catastrophe accelerates clean water is fast becoming one of our most important and threatened resource. The Rapid Creek Water Shed needs to be protected in its entirety to protect it as a water source and cultural and natural resource. I urge you not to allow gold mining or gold exploration in this area. Gold mining would degrade the environment and put all of the water at risk. And clean water is far more valuable than gold. It sustains the people the wildlife and the agriculture of this region. I urge you to support mineral withdrawal around Pactola Reservoir. Sincerely, Evan Elias
Chris	Chrissos	North Stonington	CT	As water becomes deleteriously more rare in the western US, its value exponentially increases. Its value to certainly outweighs the value of gold to thirsty Americans and thirsty agriculture.
Saundra	Hodges	Castro Valley	CA	As we look forward to a more an more uncertain future due to climate upheaval, the most reasonable approach it to expand protections in anticipation of future needs. Please look ahead and expand the protection of the Pactola Reseroir-Rapid Creek Watershed.
Elizabeth	Gluck	Glendale	AZ	Because alot of animals and also people count on that water.
Linda	Golley	Kent	WA	Broaden to provide meaningful protection of water resources.
Bill	King	Austin	TX	Civilization will not survive without clean water.
Doris	Queener	Astoria	OR	Clean and consistent water is vital for survival of humans and our natural environments. Preserve the Rapid Creek Watershed.
Dorothy	Frisch	Grand Rapids	MI	Clean drinking water is more valuable than gold in this case!
Janet	Tice	Chapel Hill	NC	Clean water and clean air are essential to life. Simple, but true.

Robert	Smith	Pittsburgh	PA	Clean water for drinking and recreation should not be sacrificed for mineral extraction of undetermined worth.
Victoria	Silver	Irvine	CA	Clean water in the US is under attack by extraction industries, and for profits that do not benefit but threaten the well-being of American citizens. Don't let it go further
Robert	Hebbler	San Diego	CA	Clean water is a human right!
Cynthia	Mastro	Elizabeth City	NC	Clean water is a necessity. The US is not a third world country; without clean water, we could be.
Tammy	Bittler	Newport	OR	Clean water is a pivotal resource that is growing more scarce.
Gail	Trill	Williamsburg	MI	Clean water is essential to survival on earth.
Diane	Tessari	Excelsior	MN	Clean water is essential, and rates way above gold when it comes to supporting life on Earth!
Don	Faia	Aptos	CA	CLEAN WATER IS LIFE ITSELF!!!!
Melissa	Hutchinson	Pacific Grove	CA	Clean water is more precious than gold and its benefits are shared among many, not few.
Mike	Wolf	Alto	MI	Clean water is more precious than gold. Keep the Rapid Creek watershed clean!
K	Melton	Butler	TN	Clean water is now a rarity in America, almost as rare as concerns for clean water.
Amy And Greg	Stanton	Forestville	CA	Clean water is our most precious resource and already under threat of scarcity. Please protect it above and beyond all other resources.
Linda	Morgan	San Pablo	CA	Clean water is priceless.
Mary	Bautista	New York	NY	Clean water is the foundation of our public health.
Bette	Holland	Dawsonville	GA	Clean water is the lifeline for our planet. Please protect this reservoir!
Linda	Hendrix	Bend	OR	Clean water is vital for life at all levels and too often we take it for granted. We cannot afford to do this anymore, it makes more sense to conserve than to spend billions later trying to clean up a decimated area.
Joni	Manson	Westerville	OH	Clean water is worth its weight in gold!
Mary	Andreani	Naples	NY	Clean water is worth its weight in gold!
Leslie	Kowalczyk	Sonora	CA	Clean water is worth its weight in gold! Please, no mining near this precious water source.
Dana	Atnip	Ferndale	MI	Clean water is worth its weight in gold! We don't need gold to live but we do need clean water! The Rapid Creek watershed needs to be protected from mining!

Teresa	Welborn	San Francisco	CA	Clean water is worth more than gold, and honoring commitments to tribes is essential
Brian	Voeller	Medford	OR	Clean water must be considered a priority over mining proposals. The entire watershed must be taken into account. No more poisoning of water. Also, culturally significant lands need to be preserved, not polluted.
Mary	Goodkind	Asheville	NC	Clean water should be one of your highest priorities.
Donald	Clauser	Brookfield	WI	Clean water should be the birthright of all humans. We don't need more gold.
MaryAnn	Gianantoni	Stafford Springs	CT	Clean water, air, soil: of paramount importance!
David	Dougherty	New Britain	CT	Clean, fresh drinking water is, and should always be a basic human right and NEVER a luxury
Barbara	Arnzen	Spokane	WA	Continuing protections are needed
Ld	Anderson	Felton	CA	Critical water sources should be given priority over mining
Gary	Lewin	Durango	CO	DO IT!
Nancy	Casey	Rochester	MN	Do not disturb this water shed it is more precious than all the gold in the world. Please respect the need for clean chemical free water. Mining will only contaminate the water with forever chemicals. Please pass a bill to forever protect the area. Thank you, Nancy Casey
Rita	Heinz	Durham	NC	DO NOT GIVE AWAY CLEAN WATER TO MINING COMPANIES!!!
Rebekah	Duran	Tucson	AZ	Do the right thing
Helen	Keegan	North Branford	CT	do the right thing
Marianne	Salamone	Middletown	DE	Do the right thing to save this beautiful and vital resource. Too much has been lost already
Rebecca	Redford	Livingston	TX	Do the right thing!
Benjamin	Wolf	Boulder	CO	Do this, please! Thank you
Dorothy	Wilkinson	Los Angeles	CA	Do YOU drink dirty water? Then why should I? Or anyone else?
Paul	Szymanowski	Curtice	OH	Does it make sense to destroy water that civilians and the military drink?
Sandra	Cobb	Moreland Hills	OH	Don't continue the US government's persecution of Native Americans by disrupting their water supply.
Jenny	Walker	New York	NY	Don't practice "Post-Natal Birth Control". There's not enough gold to make it worth more than the people and planet
P	Johnson	Danville	CA	Drinking water is a precious and oftentimes limited resource. Consequently, please put an immediate stop to gold exploration!
Diana	Daughters	San Luis Obispo	CA	EARTH! First, Last, and Always.

Elizabeth Anne	Riley	Silver Spring	MD	Enough damage to the indigenous peoples
Allen	Sheldon	Trempealeau	WI	Everyone benefits from clean water, and certainly fish and wildlife benefit also. Don't risk pollution by a mining company just so a few people can make money at the expense of everyone of everyone else.
Caitlyn	Edmundson	Delmar	NY	Everyone had a right to clean drinking water in their communities.
Misha	Askren	Los Angeles	CA	Extend the withdrawal to include all the gold mining operations in the Rapid Creek Watershed. The dangerous minerals that can contaminant have no acceptable levels, so the whole watershed should be looked at.
Derek	Benedict	Lynnwood	WA	Extreme weather due to the Climate Crisis has led to massive rain/snow storms and then severe droughts. We need to capture this water instead of letting it flush back into the ocean!
Thomas	Johnsen	Thousand Oaks	CA	Finally, after all these years of broken treaties, let's do right by the original land owners and protect their resources and way of life.
Frank	Lewkowitz	Paradise Valley	AZ	For our grandchildren
Carol	Levin	Bedminster	NJ	For the sake of our children and their children we need to protect our water!
Adrian	Schnell	New York	NY	Fresh, Clean Water can never be compromised.
Charles	Huber	Westminster	MD	Fresh, clean water is a precious resource and should be protected at all costs. Water is life!
Diana	Light	Laguna Woods	CA	Fundamental to every endeavor is the availability of a safe and abundant water supply. It can be thought of as analogous to a body's healthy and free flowing supply of blood.
Nathan & Carol	Bales	Wilmington	NC	Get serious and protect the whole watershed! Your are trying to piecemeal a complete watershed and that won't work!
Joe	Hardin	Santa Monica	CA	Gold dredging, even mineral exploration can do serious damage to a water shed. It is wrong to trash any watershed, especially one that serves Tribal communities and wildlife.
Donald	Kozlosky	Clarks Summit	PA	Gold is a vanity--clean water is a necessity!
James	Cooke	Las Vegas	NV	Gold mining appeals to the greedy side of many of us, but the downside is the destruction of the environment and pollution of our water resources. Here in Nevada we know how precious our water is and so do those in the Black Hills of South Dakota. Please protect the Pactola Reservoir-Rapid Creed Watershed.
Becky	Bartovics	North Haven	ME	Gold mining destroys water resources. Do not allow continued mining in the Pactola reservoir Rapid Creek Watershed.

Maryrose	Randall	Rock Hill	SC	Gold mining is extremely polluting. It ruins creeks and waterways forever. The companies say they will restore them, but they can't. The fines levied are merely an operating expense. We see the results of gold mining here in SC. Please don't let them ruin forest service and BLM land, especially if that land has cultural significance. It will never be the same again if you allow gold mining. The area of destruction is much larger than the mine itself.
Thenice	Gall	North Canton	OH	Good start to protect the Pactola Reservoir and Rapid Creek. Please do more to protect them.
Mike	Hobbs	Hanford	CA	Greed cannot override need. Uncontaminated water is the 'blood' of all living things. Why must we keep fighting over and over to supersede the immoral corporate greed?
Jan	Rezos	Carmichael	CA	Having seen the devastation mining has caused near Folsom Dam and learning of toxic chemicals used in gold mining operations, I totally the watershed withdrawal near Pactola Reservoir.
Amy	Scott	Dunmore	WV	Having traveled extensively throughout Colorado, I have seen the damage to our land and water caused by gold and silver mining - decades and even a century after the mining ceased. Only a fool would risk contaminating water resources again for gold mining. We have the irrefutable truth of the damage that can occur.
Anthony	Bond	New Bern	NC	Hello, Plain drinking water is essential to every living thing on this planet. We need to stop taking this resource for granted it needs to be protected from pollution for the future. Please protect this natural resource. Thank you
Sandra	Wheeler	Farmington	NM	Here in the West, most native peoples have the same saying, "Water is life." As our megadrought goes on and on and on, and our big rivers shrink and even disappear, no one can argue with this. I grew up on the shore of Lake Erie, seemingly large large enough to be invincible. Until it became polluted. As climate becomes more and more loaded with extremes, water sources face more and more threats from nature. It's become time to recognize that water rights are not merely one factor among many interests to be "balanced." Water rights must take priority. Because there are no competing interests. We can't drink gold. We can't drink profits. Water IS life. Your decision must reflect that and protect the entire life giving system, not just an isolated portion.
Paul	Helbling	Liberty Center	OH	How can Technogym reinvent water????????
Ruth	Zowader	Madison	NJ	How much devastation will occur before we and our descendants have nothing safe left to drink? Please protect this area and start clawing back the poisons.

Julia	Cichon	Las Vegas	NV	I agree that the Pscbola Reservoir Rapid Creek Watershed needs protection and deserves preservation to the fullest capacity!
Susan	Schulman	Hinesburg	VT	I agree with this message. Pollution of our waters is unthinkable to me.
David	Scheer	Bellingham	WA	I agree: Pactola Reservoir and Rapid Creek, both in South Dakota, should be "protected" from any gold exploration and/or mining pursuits of any type! ! STOP any gold exploration that's currently going on! These waterways MUST be protected from 'any' possible pollution and/or disruption of any type so that they can continue to as excellent water sources for the surrounding vegetation and/or animal and human life that occurs 'there' and in the surrounding areas!
Mary-Barbara	Marti	Westfield	IN	I am a mother of 3 and a kindergarten teacher. Please protect these areas for the next generation.
Jeffrey	Gilman	Lafayette	CA	I am a professional hydrogeologist and believe that a thorough study is needed.
Eliot	Moss	Amherst	MA	I am deeply concerned of the broader impacts that gold exploration and mining have on the environment, particularly on water resources.
Carol	Lane	Concord	CA	I am not from this area, but what a beautiful area. Please help save it.
Grace	Holden	Arlington	VA	I appreciate your considering my thoughts on this issue that is very important to me and so many others.
Jana	Moreno	Brea	CA	I appreciate your time and attention in this matter.
Sandra	Mcmahan	Green Valley	AZ	I believe clean water is much more important than than mining!!!
Michelle	Lamb	Omaha	NE	I believe that the Indigenous PEOPLE of North America have been killed, disrespected and disregarded by the European's who call America THEIR home. PERPETUATING this disgusting behavior is a clear message to all who see/hear the effects of it, that MONEY MATTERS MORE THAN PEOPLE? That's the type of LEGACY you wish to leave of yourself and your family? I certainly hope not. We ALL have needs but, basic needs shouldn't come with these types of costs to anyone. Life has its own challenges. Hy compound them unnecessarily. Would any of you trade places with those whom these actions effect? I hardly doubt it. Other than GREED what could possibly be driving these reckless endeavors. We possess the ability to do what's right. Foolishly turning a blind eye to reality only impedes one's ability to sustain. Dooming ourselves seems so senseless?

Eleanor	Lewis	Palo Alto	CA	I have been to this part of our country numerous times. It's so beautiful. But like all life, it depends on water. Threatening that water not only threatens my family, who visit and use a well, it threatens the entire city of Rapid City. How short sighted! We need to take the long view and prioritize life over transient exploitation for mining. If there is mining, a few will get rich and the rest of us will be left with the ruins. Protect our water in this unique and beautiful place!
Allen	Gagstetter	Manistee	MI	I have enjoyed fishing on Pactola, with my Grandfather & Father who both lived in Rapid City, SD I have enjoyed fishing in Pactola with my Father & Grandfather when I was a teenager. It should be protected.
Lisa	Feurzeig	Grand Rapids	MI	I have traveled in South Dakota, and I value its beauty. We need to protect nature!
Bill	Ikler	Nederland	CO	I have visited South Dakota as a recreational tourist, and hope to return someday. Clean water is essential for tourism, residential use wildlife.
Jane	Comings	Arlington	VA	I hve visited this area and want it to remain pristine
Marsha	Wheaton	Traverse City	MI	I live in Michigan and treasure clean lakes!
Evan	Lawrence	Cambridge	NY	I live near two areas where ground water was contaminated by PFOA. If you don't have clean, drinkable water in your community or your well, you don't have much else. We need water more than we need more gold.
Gayle	Marsh	Santa Fe	NM	I own a cabin on property near Pactola Reservoir and spend several months a year living in the Black Hills. My husband's family is from the area and it is a very special place to us. I urge you to protect more than the proposed 20,000 acres of land and include the entire Black Hills and all the water running through it from the deep pockets of the mining industry. We are better than this and deserve to have this sacred area preserved for all future generations.
Stephanie	Johnson	Grand Marais	MN	I own property by Custer so i do not want any gold exploration or mining
Amy	Ippoliti	Boulder	CO	I recently visited this river and was heartbroken to see how visibly polluted it was.
Robert	Mccutcheon	Marengo	IL	I strongly agree! Do this!
Jon	Krueger	Jackson	MI	I support #NP-3479.
Patrick	Carr	Arcata	CA	I support protection of the Rapid Creek Watershed and Pactola Reservoir. I've seen what gold mining can do to watersheds here in California and hope that your agency can take steps to protect the diverse resources of that area.
Fred	Herrera	Sun Valley	CA	I support that the BLM and USFS mineral withdrawal around Pactola reservoir. Thank you and God Bless you all!

John	Goldsmith	Ukiah	CA	I support the BLM and USFS mineral withdrawal around Pactola Reservoir!
Hallie	Bulleit	Morristown	NJ	I support the BLM and USFS mineral withdrawal around Pactola Reservoir! Polluted drinking water can have dire consequences & we have seen the harm that can happen when we fail to protect our watersheds. All Americans have a right to clean drinking water!
Edith	Simpson	Asheville	NC	I support this proposal because our cultural and natural resources are much more important than mining.
Kathy	Knight	Santa Monica	CA	I support us respecting the water for tribal members.
Gail	Lelyveld	Washington	DC	I think it's a bad idea to project a mine where water for drinking is located. Get those idiots out of there.
Linda	Stock	Cypress	CA	I think you are wise to be cautious and considerate of the watershed and reservoir. I sm beginning to feel more confident that you will perform your duties conscientiously. Keep up the good work.
Jenise	Porter	Tucson	AZ	I took a road trip across the U.S. in 2022 and I felt very proud at the gorgeous rivers and woods that have been protected by the U.S. government for the health and enjoyment of all of us. Protecting the Pactola Reservoir-Rapid Creek Watershed would benefit everyone who lives in the United States and all of us who enjoy its beauty.
David	Harrison	Salem	OR	I urge you to protect even more of the Rapid Creek watershed.
Linda	Donnelly	Salem	OR	I urge you to protect the entire Rapid Creek Watershed. The surface water, reservoirs and aquifers are all connected. Private wells, municipal water systems, local water associations and piped sources to Ellsworth Air Force Base also need protection .
Jeanette	King	Livermore	CA	I was a resident of the midwest and took many trips between family in Wisconsin, Minnesota, South Dakota and Montana. That country should be protected.
Diane	Brower	Steamboat Springs	CO	I was fortunate to go boating on Pactola Reservoir as a teenager, many years ago. And I lived in Rapid City, near Rapid Creek, at that time also. I can attest to the importance of the larger ecosystems that feed Rapid Creek, and the importance of keeping the entire watershed healthy and unpolluted, both above and below the reservoir. Too many people and too much of this ecosystem depends on untainted water. This truly IS more precious than gold.
Susan	Witter	Bellingham	WA	I wholeheartedly support protecting the entire Rapid Creek Watershed and the Pactola Reservoir. Let's do it right the first time.
Dianne	Maughan	Inverness	FL	I zm not Indigenous but it is very, very important to me. As long as mining laws remain in the Dark Ages, such protections will ne necessary.

Bob	Macpherson	Santa Fe	NM	I'm a retired scientist living in Santa Fe, NM.
Caroline	Deegan	Chapel Hill	NC	I'm a physician, and I know the critical importance of clean water to human life. Extractive industries such as gold mining are always a threat to clean water. We need to prioritize our water sources, not mining company profits!
Susan	Donaldson	Boulder	CO	I'm from Colorado and am well acquainted with toxic discharges from mines. Pollution and its problems do not "stay put" in small areas around mining projects; the protected areas in this proposal need to be expanded.
Linda	Pohle	Denver	CO	I'm writing to say thank you for considering a proposal that would temporarily stop gold mining on 20,000 acres of public lands. But I urge you to make the area of withdrawal even larger to include most of watershed and the many mining claims above and below Pactola. Water is liquid gold in the West and clean water is absolutely vital to good health.
Linda	Silversmith	Rockville	MD	I've been promoting clean water since 1972
Robert	Pickford	Cincinnati	OH	In 1974, I was married in Rapid City, which gets its water from the Pactola Reservoir.
Steve	Finucane	Prescott	AZ	In Arizona we have a long history of mining leading to Superfund sites.
Jennifer	Skinner	Boise	ID	In these critical times of loss of water sources, dramatically changing climate, and overpopulation of the planet that rely on what is left of life sustaining resources , our collective focus MUST be on protecting and preserving the purity of those resources to replenish us all. Commercial interests are NOT integral to life of any kind , rather what we have become used to. We can adapt and create a life free of gold but not from water. Please do the right thing and protect not only these, but all sacred waters within the jurisdiction of the USFS. Thank you.
Indee	Brooke	Sunland	CA	Insufficiently considered development has far-reaching consequences. Development in the Yang-tse River (3rd largest river in world) watershed has compromised potable water downstream, caused flooding due to devastation of forested areas, and threatened biodiversity (essential to life support across all ecosystems). The Black Hills are not only a sacred site for native peoples and should be sacrosanct to them on that basis alone, but also, heretofore, have been a pristine natural area. Allowing mining or other development without the severest, most strict controls to ensure there are no "unintended" consequences is foolishly, wickedly stupid. As official governmental stewards of this land, it is your responsibility to ensure that preservation of the land is guaranteed. Once the land is poisoned, reclamation can take decades at minimum, and, in the meantime, people who depend upon the water to live must relocate or die.

Theodore	Janeczko	Leland	NC	Isn't there enough polluted waterways contaminating our drinking water!!? Let the local representatives and the gold mining executives bear the legal responsibility to guaranty clean water and make them set up reverse osmosis systems to cleanse any water being used to make certain hat no contaminants are present. Have the EPA or another qualified tester test the water once a month to make certain our water is clean. If that can't be agreed to shut them down!!
Nat	Childs	Quartzsite	AZ	Isn't it obvious that anything done that permanently fouls the waters of the lake or any river for that matter is un-acceptable?
Cathy	Pomerleau	Buckfield	ME	It cannot be stressed too much, we need to protect our environment and water.
James	Dunn	Littleton	CO	It is critical that this area is protected from harmful industrial activities.
Kathleen	Hauser	Fitchburg	WI	It is crucial that water resources be protected. There is no entitlement to endanger them to exploit other resources.
Fran	Post	Port Townsend	WA	It is far past time to respect tribes and their right to clean water - after all most of the rest of us experience this! Please approve this proposal!
David	Gritter	Grand Rapids	MI	It is imperative that as much land as possible be protected around Pactola Reservoir. To do otherwise threatens this important watershed with contamination that cannot be undone. Thanks, Dave Gritter
Tamara	Rakow	Rosemount	MN	It is important to me because we must protect nature(including water and air). We also must protect Tribal and rural communities, wildlife, and agriculture in the beautiful Black Hills of South Dakota.
Marie	Sepeta	Granger	IN	It is of utmost importance to keep our waters pure. Gold mining poses an enormous risk of polluting the Pactola Reservoir and Rapid Creek Watershed. It could also destroy important cultural and natural resources on these public lands.
Mary-Helen	Sullivan	Richmond	VA	It is possible to recycle gold; we should concentrate on that, rather than imperiling water with gold mining, which includes the release of a lot of toxic substances.
Randall	Willard	Aurora	CO	It is time to focus on our wilderness areas and our waterways as we navigate the climate crisis. Please do your part.
David and Ingrid	Cook	Joseph	OR	It is urgent that the USFS and Bureau of Land Management take action to preserve the water quality of the Pactola Reservoir. Mining and exploration projects threaten sacred sites, cultural and archaeological resources, and wildlife habitat. Please protecting this watershed because it provides water for agriculture, recreation, and every faucet in one of South Dakota's largest cities. Thank you.

Mary	Humphrey	Baltimore	MD	It is vital that an in depth study of the effects mineral withdrawal has on water quality in this area. Please allow every consideration for the ramifications continued mining poses to the people inhabiting this watershed region! Mitigation must be your first priority!
Peter	Mcnall	Diamond Bar	CA	It matters because people and wildlife matter!
Cory	Mccuen	Chambersburg	PA	It's important that people don't have to worry about what might happen to their source of water
James	Talton	Bedford	IN	It's makes no sense to deny any people the safety of their own neighborhood as it directly affects them. To ignore that, means that those people and by extension, all citizens are disrespected by those that run governments thereby dooming all citizens for no reason.
Cynthia	Roth	Lancaster	CA	It's really a no-brainer. Protecting the Rapid Creek Watershed in order to support life of all kinds is a must.
Walt	Gray	Phoenix	AZ	It's the responsibility of government to protect vital resources when threatened by private interest who plan actions that will destroy the resources needed by the public.
Karen	Feiler	New Providence	NJ	It's the right thing to do!
Anne	Jackson	Birdsboro	PA	JUST DO IT !!!!!!!!!!!!!!!
Kate	Lunceford	Bothell	WA	Lands near drinking water must be protected from mining exploration!
Joyce	Veit	Charlotte	NC	Leave the reservoir for the people's of that area . Stop the destruction !
Joyce	Tompsett	Tracy	CA	Let me guess. More republicans. More making money. Just stop. This land is your land. This land is my land. Remember that song? Stop with the financial gain through ecological ruin. Just fucking stop. I am so sick of having to sign and call and demand that you do things your mama would have taught you was the right thing to do anyhow. I am am mom and I am sick of all the acting up and bad male behavior. Stop now. Just stop.
Grant	Levitan	Naperville	IL	Let's do the right thing for our Native American brothers and sisters, and for all of us.
Elizabeth	Veach	Ukiah	CA	LET'S BAN TOGETHER TO PROTECT THIS IMPORTANT WATER SOURCE!!!!
Peter	Melka	Atwater	MN	Like many from the midwest seeing South Dakota's natural treasures was an important moment of my childhood.
Rhianna	Miller	Santa Rosa	CA	Living beings can't drink gold or any of the toxic chemicals used in mining. Protect this watershed.
Linda	Fielder	Carrollton	TX	Look at how much Bottled Water is used in the US. Clean water is worth its weight in Gold. No mining and no exploration in the Pactola Reservoir and Rapid Creed Watershed.

Nancy	Hiser	Portland	OR	Look at the entire watershed!
Beau	Bushor	Croghan	NY	Make wster clean.
Edith	Neimark	Princeton	NJ	mineralmining uses poisonous acids and disturbs soil. threats to drinking water
Cat	Ransom	Cottonwood	AZ	Mining and clean water are not compatible. Period.
Kristi	Wilson	Excelsior	MN	Mining downstream is just as much a threat as mining upstream?
Valerie	Clack	Kaneohe	HI	Mni wiconi!
Stephen	Jones	Sacramento	CA	More gold is not worth the damage to our precious environment!
G	Clemson	Las Vegas	NV	MORE protected wild places LESS myopic exploitation for the profits of a few
Gail	Wechsler	San Francisco	CA	My home is adjacent to the San Francisco Bay, where past gold mining left a toxic legacy of methylmercury that continues to contaminate the food chain and threaten the health of people who eat fish caught in the Bay. I urge you to establish very strong protections for the natural and cultural resources of the Pactola Reservoir/Rapid Creek Watershed. Mineral withdrawal must not be permitted in places where it could lead to contamination of a critical source of water for drinking and agriculture.
Steven	Moore	Fitchburg	WI	My in-laws used to fish in Pactola and eat what they caught. My mother-in-law still lives in Rapid City and is 96 years old. Contaminated water would be a real problem for her frail health. Please keep the water clean. We can do without a little gold.
William	Grant	Godfrey	IL	Native American lands have been ravaged enough.
Betsey	Bess	Port Hadlock	WA	Nature in all forms must be protected rather than destroyed by greed, and this Rapid Creek is no exception.
Weslie	Walker-Phillips	Wickenburg	AZ	No gold drilling!!! Water is way more important..
Joe	Swabb	Donnelly	ID	NO GOLD EXPLORATION!
Adrienne	Inglis	Leander	TX	No mining in this beautiful area!
Kathleen	Myers	Berea	KY	No water no life!! It's pretty simple!
Nancy	Hubbs-Chang	Pasadena	CA	Nope. Make the gold exploration stoppage permanent. No one wants those sorts of chemicals in their drinking water.
Jeff	Schmid	Frederic	WI	Not only are we losing the Birds and the Bees, we are on the verge of destroying our Natural World !

Dawn	Casper	Madison	WI	Now more than ever my husband and I fear for the future of our two daughters. We need to think how our actions today impact not only us, but our children and future generations. We need to protect the Rapid Creek Watershed NOW, before it is too late. Our kids are counting on us to make the choices today, that give them a chance for a healthy future tomorrow!!
Tyesse	Goodwin	Las Vegas	NV	Of they allow others to come in to mined for minerals it will completely destroy it..We need water way more then just about anything else..Too many water shortages already..Too many humans are depending on this water
Beth	Renwick	Baltimore	MD	Once clean, fresh water is gone. It's gone. We need to do everything we can right now to not take any chances with our fresh water.
Edward	Berry	Bronx	NY	Once water is poisoned it's no longer an aid to life. It becomes a danger to life. Why risk that?
Judy	Doane	San Francisco	CA	Once we allow land to be compromised by mining pollution, there is no going back. We humans must learn how to live on the land in ways that restore nature because nature provides an environment we can thrive in protecting our ability to survive on the planet. it is really so simple, isn't it!
Louis	Smith	Mount Pleasant	SC	One cannot drink gold. One can live without gold, but not without water.
Christoph	Bell	Lafayette Hill	PA	One might think that by now we humans would recognize our ability to really make a mess of the planet we call home, frequently in the quest for money. That's certainly the cae here. Any large tract of land without potable water has been historically referred to as a wasteland. Is this what we want here???
June	Smoot	Kennebunk	ME	Our natural environment is sacred to all who experience its beauty & diversity of life, both above & below these waters. Who are we, to destabilize the flow of biological life, to undermine our creator's bounty & take away what has been nurtured by our indigenous inhabitants for thousands of years? Power = Greed vs. Creation Care = Sustainability?. We must follow the Wisdom of Nature, Mother Nature 
Ann	Hollyfield	Waldport	OR	Our own survival depends on that of the natural world.
Catherine	Dishion	Goleta	CA	Our water is worth its weight in gold. We must protect all of our water sources.
John	Evenson	Madison	WI	Pactola and this watershed are much too valuable to risk with the proposed mining exploration.
Carmen	Hernandez	Fort Wayne	IN	People and their culture are more valuable than gold.
Diana	Berardino	New York	NY	PEOPLE NEED CLEAN WATER, NOT GOLD!
Connie	Grundhofer	Lino Lakes	MN	People, flora and fauna deserves safe water. Please do the right thing.

Felicity	Hammer	San Francisco	CA	Please - even as a visitor to South Dakota, it is important to protect natural resources. I would rather see the healthy environment than one with spoils of mining. Thank you.
Maria	Montag	El Segundo	CA	Please act to protect the entire Rapid Creek Watershed. With the continuing aridification of the western United States, water needs to be considered more valuable than gold.
Jeffrey	Wang	Hacienda Heights	CA	Please act with urgency!
Rainbow	Di Benedetto	Austin	TX	Please approve this proposal and protect this watershed!
Myra	G	Hendersonville	NC	Please consider my following points on the watershed proposal:
Karin	Ehlers	Yankton	SD	Please continue with protecting the watershed. Once it has been polluted, it is very hard to correct the harm done.
Christina	Raptis	Commack	NY	Please do all that you can!
Karin	Hess	Knightdale	NC	Please do all you can to protect the Pactola-Rapid Creek Watershed's water quality from mining and the devastating consequences involved with it's pollution to this essential source of water for the community and all of us who enjoy visiting this priceless area.
Elizabeth	Anderson	Columbus	OH	Please do the right thing for us all!,
Silvia	Rocha	Azusa	CA	Please do the right thing now, open your heart and be kind to all animals, be empathic and show you are a great leader and more will follow your footsteps. Thank you Mrs S Rocha Azusa Ca 91702
Melinda	Grant	Cupertino	CA	Please do the right thing!
Lillian	Mahaney	Leland	MI	Please do the right thing.
Thorsten & Gail	Ostrander	San Diego	CA	Please do the right thing.
Kay	Gallin	Los Angeles	CA	Please do what is best for the planet & people not corporations!
Gary	Popejoy	Millville	CA	Please expand protected areas.
Antonia	Chianis	Blue Jay	CA	PLEASE HELP
Kenneth	Steel	Mount Laurel	NJ	Please help our country conserve its freshwater resources.
Amanda	Winters	Austin	TX	Please help our phones on the reservation. They are Americans also!
Evelyn	Fenter	Chesterfield	MO	Please help this precious land area be protected and not be destroyed or threatened by mining projects.
Carrie	Vanetten	Mc Lean	IL	Please keep the water clean. It is so important!!
Jo	Cciotti	Pittsburgh	PA	please keep this water source pristine and do not give in to big business
Aloke	Guha	Erie	CO	Please let us save our our water and respect the rights of America's indigenous peoples

David	Severn	Philo	CA	Please listen to the wisdom that supported happy and healthy communities on our planet Earth for several millennia before we started exploiting her many wonders for profit. As it is the degree to which we are battering the Earth we are also battering the human psyche.
Harriet	Hill	McKinleyville	CA	Please make sure the Rapid Creek watershed is fully protected for its important uses, including drinking water!
Ian	Napper	Bountiful	UT	Please protect all watershed lands!
Susan	Richards	Houston	TX	Please protect our water
Flavia	Sordelet	Tahoe City	CA	Please protect the entire Pactola Watershed from the harmful impacts of mining, which includes both environmental and human health impacts that can last for many generations to come.
Joy	Reich	Boulder	CO	Please protect the entire Rapid Creek Watershed which is the sole source of water for Tribal and rural communities, wildlife, and agriculture in the beautiful Black Hills of South Dakota.
Steve	Pruitt	Albuquerque	NM	Please protect the entire Rapid Creek Watershed. Thank you.
William	Forbes	Columbus	OH	Please protect the items requested in this petition!
Rosemary	Ross	The Dalles	OR	Please protect the Pactola Reservoir & Rapid Creek Watershed cultural and natural resources from all mining & destruction..
Amber	Archangel	Everett	WA	Please protect the Pactola Reservoir and Rapid Creek Watershed by supporting the BLM and USFS mineral withdrawal around Pactola Reservoir! Thanks
Debra	Dunson	Spring Hill	TN	Please protect the Rapid Creek Watershed, including its cultural and natural resources. Gold exploration and mining must be prohibited from contaminating water resources of Rapid City, Ellsworth Air Force Base, agricultural communities and tribal areas extending to the Cheyenne River.
Stephen	Crowley	South Burlington	VT	Please protect the Rapid Creek watershed. We are all downstream!!!
Conor	Sorghan	San Diego	CA	Please protect the Reserve and Creek NOW!!
Sharon	Ohlms	Foley	MO	Please protect the water! It is so important for the lives of so many people!
Jane	Macfarland	Altadena	CA	Please protect the Watershed around the Pactola Reservoir and do not pollute it by allowing gold exploration. We cannot drink gold!
John	Atwood	Chicago	IL	Please protect the Watershed from these just-for-profit activities. The area is beautiful and precious, I've been there!
Sharon	Novak	New Berlin	WI	PLEASE PROTECT THE WATERSHED SUPPORTING THE BLM USFS MINERAL WITHDRAWAL.
Linda	Evinger	Evansville	IN	Please protect the Watershed which in turn will help protect our public lands.

Kathy	Robinson	Pleasant Hill	CA	Please protect this very important reservoir.
Flo	Randall	Glendale	CA	please protect this water source!
Jo Ann	Johnson	Dewey	AZ	Please protect this watershed. JJ
Gary	Farrar	Kansas City	MO	Please protect this wonderful resource. Hurray for the USFS and the BLM!
Rebecca	Dick	Rochester	MN	Please read this and give serious consideration. we need your help and attention here.
Carol	Nicholson	Alachua	FL	Please respect our Native American rights & culture.
Joseph	Engelgau	Broomfield	CO	Please save the water supply & save your soul.
Judith	Kenney	Chicago	IL	Please stop degrading the only planet we have.
Karen	Loeser	Mercer Island	WA	Please stop the distruction of our public lands.
Noah	Armstrong	San Jose	CA	Please support clean water for native americans.
Dianna	Kessler	Cornville	AZ	Please support the Pactola reservoir and rapid Creedk Watershed proposea. It will protect cultural and natural resources located on those lands which are more precious to preserve than the mining that could strip us of those same, valuable resources.
Jonathan	Hancock	Chicago	IL	Please take these vital steps.
Rosalie	D'Angelo	Albuquerque	NM	Please, do the right thing.
Mary	Franceschini	Concord	CA	PLEASE, for everyone's sake, protect this precious piece of land.
Clara	Bargellini	Oakland	CA	Please, we must protect nature--we need to for us and the future of the earth.
Jerilyn	Downing	San Francisco	CA	Please!
Cynthia	Ishimoto	Palo Alto	CA	Please.
Gail	Harty	Lanesboro	MN	Poison water = poison in our bodies.
H	GRAY	Hayward	CA	POISON WATER IS MASS MURDER.
Michael	Rueli	Honolulu	HI	Polluters are Absolute Criminals and should be killed. Get with it!
Steven	Hayashi	Los Gatos	CA	Preserving the water supply from pollution is critical!
Robert	Sullivan	Poway	CA	Profiteers are ruining our planet. Stop it here.
Claire	Chambers	Oakdale	CA	Protect all nature! Nothing is better!
Arthur	Keller	Palo Alto	CA	Protect all the lands near the Pactola Reservoir-Rapid Creek Watershed.
Robert	Raven	American Canyon	CA	Protect Clean Water!
Todd	Snyder	San Francisco	CA	Protect Our Public Resources!
Becky	Wharton	Bastrop	TX	Protect our watets!
Sherrill	Futrell	Davis	CA	Protect our wetlands too. The Supreme Court won't.

Rob	Cherwink	Sonoma	CA	Protect Pactola Reservoir and Rapid Creek in South Dakota!
Nancy	Petitti	La Mesa	CA	Protect Pactola Reservoir-Rapid Creek Watershed! Clean water is a vital and diminishing resource
Stephanie	Toohey	Corvallis	OR	Protect the entire Rapid Creek Watershed
F.	Montgomery	Santa Rosa	CA	Protect the water, food and health of Americans over profiteering!
Susan	Horne	Santa Barbara	CA	Protect the water, the lives of our native peoples. People not profits. Please!
Mary	Ricketts	Springfield	OH	PROTECT the WATER!
Patricia	Halderman	Lincoln	NE	Protect the Watershed!!
Patricia	Schwarzlander	Jamesville	NY	PROTECT THE WATERSHED!! WE ALL MUST HAVE A SOURCE OF CLEAN DRINKING WATER.
Roxanne	Hoisington	Stephens City	VA	Protect this area. Do not damage it.
Katherine	Sewell	Madison	AL	Protect Tribal waters in the Black Hills!
Helen	Greer	Tucson	AZ	Protect water! We can't live without it.
Dianne	Hudson	Grand Marais	MN	PROTECT!!
Lana	May	Mount Prospect	IL	Protecting he Pactola Reservoir and Rapid Creek Watershed should be of the utmost importance!
Sherry	Vatter	Los Angeles	CA	Protecting our natural resources, especially fresh water, is more essential that ever in light of climate change.
Neil	Fisher	Sand Springs	OK	Protecting this watershed is critical because it provides water for agriculture, recreation, and every faucet in one of South Dakota's largest cities.
Chris	Eaton	Los Angeles	CA	Protecting this watershed is critical because it provides water for agriculture, recreation, and every faucet in one of South Dakota's largest cities. Allowing mining in this area will have future ramifications for more than a century. I support the Pactola Reservoir/Rapid Creek Watershed mineral withdrawal. It will protect cultural and natural resources far more valuable than gold!
Barb	Bittenbinder	Central	SC	Protecting this watershed is critical because it provides water for agriculture, recreation, and every faucet in one of South Dakota's largest cities. In the words of local resident Jeannie Bush, "Allowing mining in this area will have ramifications for a century."
Jennifer	Herrmann	Hiawatha	KS	Protecting water anywhere helps to protect water everywhere! The planet is a system- everything works together. We have to take care of this in order to protect drinking water
Linda	Walker	Sun City	AZ	Protecting water more important than gold.

Christi	Nash	Arcata	CA	Protecting water should be a number one priority over all other resources
Linda Rae	Gregory	Chuluota	FL	Protecting watersheds is critical for our future water supplies, and much cheaper than cleaning up the water after we have polluted it!
Michael	Bloom	Berwyn Heights	MD	Protest the Rapid Creek Watershed, it's far more important than gold!
Hannah	Irwin	Eagle	CO	Rapid Creek is very important to me as it's my husband's hometown and I want to continue to travel back and enjoy its scenery with future generations.
Paula	Kerrebijn	Milpitas	CA	Rapid Creek Watershed is the sole source of water for Tribal and rural communities, wildlife, and agriculture in the beautiful Black Hills of South Dakota and needs to be protected and kept pristine.
Karen	Jacques	Sacramento	CA	Rapid Creek Watershed must be protected. It is the sole source of water for tribal and rural communities and for wildlife in the Black Hills. Water protectors have been fighting to stop gold mining in the Rapid Creek Watershed since 2019. They absolutely must be given the watershed protection they demand and that protection must be permanent. The US must not violate tribal rights in Rapid Creek Watershed or anyplace else and we must not keep destroying the environment in the name of extraction and greed.
Patricia	Reimer	Camp Hill	PA	Rapid Creek Watershed, is the sole source of water for Tribal and rural communities, wildlife, and agriculture in the beautiful Black Hills of South Dakota. It should not be contaminated by gold exploration in the watershed.
Fred	Wills	San Antonio	TX	Rapid Creek's entire watershed should be permanently protected.
Rand	Friedenfels	Medford	WI	Recycle first! Too much goes to the dump then we need more... Protect the earth!
Paul	Huddy	Tucson	AZ	Remember King Midas. We can live without gold and other minerals -- we can't live with clean water.
John	Dannenbaum	Philadelphia	PA	Risking an important water resource for Gold? The world can live without Gold. The world cannot live without water. Period, full stop. Please don't sacrifice this important and sacred water resource for fool's Gold. Thank you.
Anna	Walsh	Shepherdstown	WV	Safe water is the most important thing to all of us.
Adrian	Schnell	New York	NY	Save as many forests as we can.
Robert	Puca	Brooklyn	NY	Save earth and animals
LAURA	SANDROCK	Kapolei	HI	Save our water! We need it!
Karl	Hahn	Las Vegas	NV	Save the Lake.

Linda	Lyke	Los Angeles	CA	Save the River! no mining for gold.
Valerie	Zachary			Save what we have left.
Stephen	Brown	Berkeley	CA	Scenic, recreational, and community values must come ahead of industrial and commercial interests. This reservoir and watershed deserve strong protections!
Ellen	Rozek	Saint Paul	MN	Since South Dakota has limited sources of fresh, drinkable water, it is that much more important that the USFS and BLM act to protect the whole Rapid Creek Watershed from the toxic effects of gold mining.
Bill & Ida	Beaudin	Colorado Springs	CO	So many issues like this one speak to our need to protect the Environment for our "Collective Children & Grandchildren", and hope that you will do the right thing for them!! Bill & Ida
Susan	Rippe	Milford	NE	Some things are worth far more than gold! Protect the pergola Reservoir and Rapid Creek Watersheds from mining!
Robert	Sager	Gig Harbor	WA	Stand up for watershed protection for tribal and rural communities. This is not a site for mining.
Elizabeth	Seltzer	Media	PA	STOP DESTROYING OUR PLANET
Mary Margaret	Williams	Bayport	MN	Stop gold exploration and mining in the Pactola Reservoir and Rapid Creek. This clearly environmental racism and greed at its worst!!
Paul	Palla	Greencastle	PA	STOP POISONING US!!
Michael	Stoyanow	San Diego	CA	Stop selling off our resources for short term profit...please!
Cindy	Carter	Appleton	WI	STOP the genocide on the native people
Karen	Froming	Lake Oswego	OR	Stop the incessant GREED that is destroying our natural world!
Kathy	O'Brien	Redway	CA	Stop this Insanity!
A.	Grimshaw	Roswell	GA	Stop this or lose your public trust which cannot be regained once lost.
Joyce	Calagos	San Francisco	CA	Support the BLM and USFS mineral withdrawal around Pactola Reservoir!
Michele	Sanderson	Walnut Creek	CA	thank you for all your good work!
Barbara	Burge	Amenia	NY	Thank you for understanding that this is a critical decision and will effect other river, reservoir, and watershed decisions this year. Upstream and downstream ARE connected to your plan of the future!

Olivia	Ure	Tucson	AZ	Thank you, with all my heart, for taking this important first step. But you really need to protect more. As you know, mining in particular takes a huge toll on the environment. There are few things on our planet as important as clean water. Without clean water, there is no hope for life. Please avail yourselves of existing data as well as the proposed study on the effects of mining on the environment and its inhabitants, and you will see that it is of crucial importance that you accept responsibility. To be a caretaker, protector, steward of the irreplaceable lands in your control. I thank you for reading my letter and for protecting our land.
Rev. Allan B.	Jones	Santa Rosa	CA	Thank you.
Michael	Barnett	San Francisco	CA	Thank-you for standing up to the corporate elite and for America's remaining wild lands.
Mark	Goodman	Dallas	TX	Thanks for reading my letter and taking action.
Janet	Muir	Marcellus	NY	The availability of clean water is our next big challenge due to population increases and negative effects of extreme heat, drought and flooding. Every source of clean water needs protection.
Susanne	Hesse	Alachua	FL	The beautiful springs and coastal waters in our state are in grave conditions and need protection from business and development
Marilise	Tronto	New York	NY	The Black Hills are so beautiful - I've been there twice in the last year - and this watershed must be protected. Thank you for considering this letter.
Tim	Bardell	Minneapolis	MN	The Black Hills belong to the Indigenous People - they should make the decision. Its time to stop selling our souls for gold.
Michael	Schmotzer	York	PA	The Climate Crisis is real and will affect water supplies across the nation. We can live without gold; but not without water. It is your moral duty to protect our water supplies.
Charming	Evelyn	Los Angeles	CA	The constant threat to water and water quality is of grave concern to me. When we pollute or allow others to pollute, there is always someone else downriver who becomes the receivers of polluted waters, whether flora, fauna, marine life or humans. Have we not dishonored the ancestry lands and riparian habitats of the First Nation people enough? Protect or natural spaces and resources so that 100 years from now, others can enjoy and also protect.
Sharon	Lipski	Nevada City	CA	The destruction that mining for gold creates to much toxic ramifications for air, water, and soil. We need to stop mining and protect and restore our natural resources. They are far more important than gold/money.
Lisa	Modola	Melrose	FL	The entire Rapid Creek Watershed must be protected. Do not allow mining around or in the watershed. I support the mining /mineral withdrawal.

Constance	Minerovic	Northfield	OH	The Good of the People MUST outweigh the Greed of Corporate America!
Jay	Blackman	East Meadow	NY	The least we can do is protect the watershed of the people from whom we took this land.
Wendy	Scherer	Syracuse	NY	The Midwest is in extreme drought! Protect the waters of South Dakota.
Saran	K.	Los Angeles	CA	The more healthy areas, more protection for Earth.
Roy	Pearson	Albuquerque	NM	The Protectors of the the Earth have cared for and respected the natural world and this must be allowed and not interfered with. The destructivesociety that puts forth these ventures, that claims all power and dominion are slowly, no, rapidly destroying our SUSTAINING AND NURTURING EARTH PLANET. IT COULD SUCCEED SOONER THAN WE KNOW IF "THEY" ARE ALLOWED TO DESECRATE OUR HOME PLANET. SEEK OTHER PATHWAYS. Roy Pearson
Laurie	Findlay	Decatur	GA	The time is always right to do what is right. ~ MLK, Jr.
Annette	Pirrone	San Anselmo	CA	The water in this reservoir a lifeline to surrounding communities and must not be compromised! Water is life for all on this planet!!
Shamira	Jones-Brown	Woodbridge	VA	The Watershed needs to be protected to provide clean water for the Tribe.
Heidi	Hickman	Irving	TX	The West and Northwest already have enough problems getting clean drinking water, and now you're thinking of letting companies externalize the cost of doing cleanup and risk a million people's drinking water? That's a bad plan, y'all. And not a good look, either.
Joyce	Mast	Champaign	IL	The whole watershed needs to be protected, because water flows together and impacts all who need it for survival.
Jon	Povill	Topanga	CA	There is no life without (clean) water. But we can get along just fine without (more) gold.
Nicole	Martel	Buellton	CA	There is nothing more important than being responsible with our water.
Andrea	Horbinski	Kensington	CA	There's no reason to approve any gold mining exploration -- recycled gold production is vastly cheaper and doesn't require destroying any more land and habitat.
Sharyn	Calahan	Huntsville	AL	These areas must be protected. We must protect our earth.
Betsy	Wolf	Taos	NM	These waters are sacred and vital to the survival of this important reservoir and watershed.
Jason	Rabuck	Springbrook	WI	This area's cultural and natural resources has been obliterated enough.
Rev. Elizabeth	Zenker	Eureka	CA	This Earth is Sacred -- and we need to treat it this way!

Nancy	York	Fort Collins	CO	This expansive watershed is critical because it provides water for agriculture, recreation, and for human consumption in one of South Dakota's largest cities. I appreciate that you are responsibly considering the health impacts gold exploration for all users in the entire Rapid Creek Watershed . After all health of the inhabitants and the affected environment is of most importance. Lead the way and set an example for watershed safety. I also appreciate your respect and sensitivity for the knowledgeable indigenous people.
David	Edwards	Eugene	OR	This expresses my feelings exactly!
Emily	Graves	Memphis	TN	This is a great first step, hopefully to be followed by further protections for the whole Rapid Creek Watershed!
Eric	Thompson	Bismarck	ND	This is a matter of what is more important; gold or water. Try drinking gold when your thirsty. Clean water very well might be the most precious thing on earth soon.
Sally	Beer	Altadena	CA	This is a very important protection, but more watershed needs to be protected. The tribes and rural communities are the top priority.
Jan	Warren	Walnut Creek	CA	This is insane. You can't drink gold, or grow crops with gold. When will tribes have their treaties upheld and their way of life honored and the desecration of their culture no longer allowed. Say no to this proposal
Ellen	Bunde	Lemon Grove	CA	This is only a proposed temporary halt to exploration in the immediate vicinity of the Pactola Reservoir. The watershed above the reservoir and the river draining the reservoir should be studied for ill effects of mining.
Laura	Zerr	Auburn	WA	This is our most precious resource and must be protected for all. Do not sell out!
Michelle	Mitchell	Claremont	CA	This is the life blood of Tribal communities! Thank you for taking action.
Lisa	Mingear	Dana Point	CA	This is tribal land. Let it be
Cathy	Spalding	Olympia	WA	This is truly important.
Deborah	Northrop	Rocky Hill	CT	This is VERY IMPORTANT for Tribal and rural communities, wildlife, and agriculture in the beautiful Black Hills of South Dakota!!! Thank you for your attention to this matter.
Sharon	Dunn	Greenbank	WA	This issue matters to me because as a volunteer on my community's water board I have learned how important safe drinking water is.
Marlene	Mikan	Canfield	OH	This preservation is too important not to pass. Please protect this water. Thank you.
Carla	Tuke	Slc	UT	This should be our top Priority!! Protecting our water sheds!
Elizabeth	Chappell	Julian	NC	This watershed is the lifeline for not humans but for all living things.

Dale	Le Fevre	Crivitz	WI	This watershed needs greater protection, not just the immediate area but to the sources. Our natural resources are being squandered and once they're poisoned, it's hard if not impossible to get them back.
Linda	Nauman	Los Gatos	CA	Thje decisions you make today will affect generations to come. Act wisely!
Kate	Kenner	Guilford	VT	To destroy such a beautiful area for the profits of a gold mining and exploration company is criminal in my opinion. They do not need the gold or money but tribal and rural communities, along with wildlife, most need this land for water and survival.
Nike	Stevens	Bozeman	MT	To not endanger Rapid Creek Watershed by gold mining that would risk the quality of water for tribal and rural communities and wildlife.
Ned	Knight	Newberg	OR	Traditional resources, cultural and natural, need to be protected NOW!
Lila	Talvitie-Zamora	Saint Paul	MN	USFS and BLM are there to PROTECT, not sell out to the highest bidder at the cost of destroying this environment. What can you be thinking? DON'T DO THIS!
Chris	Dirckx	Broken Arrow	OK	USFS please stop the damage to the Pactola watershed area from gold exploration and mining. Heavy metal toxins last for generations. The toxins will far outlast the rush from gold money.
Dona	Laschiava	Green Valley	AZ	WATER = LIFE! PROTECT IT!
John	Prybylski	Buffalo	NY	WATER = NOTHING MORE IMPORTANT ON OUR PLANET..!! ESPECIALLY CLEAN WATER...UN -POLLUTED..!! WAKE UP USFS....GOLD MINING ..???? ONE OF THE MOST POLLUTING,TOXIC PROCEDURES EVER..!!!! NO MORE MINING IN VITAL ,SENSITIVE WATERS...!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
John	Vanellis	Trenton	NJ	Water is a natural resource that can 't be wasted!
Constantine	Bogios	Walnut Creek	CA	Water is a vital resource and needs to be treated as such
Paula	Von Weller	Deadwood	SD	Water is far more precious than gold.
Deborah	Harris	Floyd	VA	Water is indeed LIFE.
Mary Arps	Thompson	Duluth	MN	Water is LIFE
Heather	Parker	Glendale	CA	water is life - to all living things
John	Macfadyen	Boynton Beach	FL	Water is life for the indigenous folks! Please clean up the water shed!
Randy	Ristesund	Sioux Falls	SD	water is life, please protect it.
Katie	Olsson	Rapid River	MI	Water is life!
Meryle A	Korn	Bellingham	WA	Water IS life! Potable water is essential!
DENNIS	SCHAFFER	Indianapolis	IN	Water is life! Protect people over profits.
Tim	Laidman	El Cerrito	CA	Water is life! We must protect and preserve our natural resources.
Leslie	Waltzer	Santa Fe	NM	water is life. protect it!

Rosalind	Doremus	Hillsborough	NJ	Water is life.
David	Fiedler	Bensalem	PA	Water is life.
Sarah	Hoover	Burke	VA	Water is life.
Heather	Mclarty	Los Angeles	CA	Water is life. Gold is not.
Carol	Garlington	Reno	NV	Water is life. Mining for gold in this ecosystem will endanger all of us.
Errol	Simpson	Walnut Creek	CA	Water is life. No water no life. Preserve and look after it. Keep it clean fresh pure and unpolluted. Manage the resource very carefully. Climate change will make all fresh water very scarce!!!!!!
Mark	Coryell	Phoenix	AZ	Water is more important than gold. Humans cannot drink gold. Not only that, my guess is that the gold is going out companies outside the USA.
Sandra	Walker	Salem	VA	Water is needed for survival and once it is contaminated it takes lifetimes to cleanse it, if at all.
Fred And Jeanenn	Tietge	La Mesa	CA	Water is our most precious resource - more prcious than gold To better protect the Rapid Creek Watershed the withdrawal needs to be increased proximity to the Rapid Creek Watershed
Sarah	Miller	Napa	CA	Water is precious. Please protect.
Anita	Watkins	Oakland	CA	water is such a precious commodity - we CAN'T keep poisoning it!
Barbara	Pikus	Portland	OR	Water IS worth more than gold! Threatening this invaluable resource for gold is unconscionable and the epitome of greed. Why should this water source be threatened? More gold toilets for trump?
James	Melloh	South Portland	ME	Water is worth more than gold. You can live a great life without gold, but only a few days without water. Water is threatened orworse in much of our nation. Save what we can. Save lives.
Anne	Jameson	Marshfield	VT	Water is, literally, life for every living species on our Earth. Therefore it's purity and availability are of primary importance. Mining and mineral exploration are a direct and serious threat to our clean water and must be stopped.
Daniel	Jones	Carthage	MS	Water is, long-term, worth more than gold. Protect these waters and these communities.
David	Vayo	Bloomington	IL	Water pollution caused by mining would ravage the area's people, agriculture and ecosystems. It would also be a profound sign of disrespect for Native Americans, for whom the Black Hills (Paha Sapa) is a site of great religious and historic significance.
William	Looney	Silverdale	WA	Water protect it NOW
Donald W.	Henderson, Ph.D.	Ithaca	NY	Water quality cannot be compromisd

Jennifer	Swearingen	Bozeman	MT	Water quality will not be protected without including upstream portions of the watershed. Please protect the entire watershed.
Desean	Freeman	Pike Road	AL	Water resources over gold watershed?
Tom	Johnson	Emerald Hills	CA	Water resources, ecology, and culture contribute far more to quality of life vastly more than the incremental addition of mining operations. Why sacrifice the many for a few, now and for generations to come?
Frederick	Tuck			Water sustains life. Its value is unlimited and undeniable. Gold is only worth what a fearful investors' market decides. It's worth is based in an elaborate fantasy.
Kathleen	Giustino	Berkeley	CA	Watersheds need to be protected from "mineral withdrawal." Water is indeed more valuable than possible gold extraction. Pollution runs downstream..
Alix	Keast	New York	NY	We absolutely need to support this mineral withdrawal.
Tracey	Bonner	Arlington	TX	We ALL have a responsibility to work together in order to Protect and SAVE our Wilderness, Waterways and Environment from senseless Destruction and Poisoning in the name of Ignorance and Greed.
Diane	Marks	Port Angeles	WA	we all need clean water more than gold
William	A	West Valley	UT	We already have too much greedy and destructive mining. Do whatever we can to protect our water and sacred lands.
Marian	Wineman	Seattle	WA	We can never cleanup our waters adequately once they are contaminated. It's vital that they be protected!!
Laurel	Gress	Wadsworth	OH	We can't afford to pollute any more of our water sources than we already have!
Bonnie	Desaulnier	Eugene	OR	We can't live without it!!!
Juli	Bauer	Shorewood	WI	We cannot afford to contaminate local water. Drinking water is a human right.
Dorothea	Leicher	Columbia Cross Roads	PA	We die within days if we don't have water. NO ONE has ever die from not having gold of other minerals!
Donald	Keyser	Johnson City	TN	We don't need encourage any further poisoning of our waters
Amanda	Ramsay	Aurora	CO	We have a lot more water than we have gold, but we need water a LOT more than we need gold. Despite the discrepancy in the amounts available, water is a higher priority.
Tom	Prost	Waterloo	IL	We have brutalized Native Americans enough. Your proposal would be a step in the right direction.
Gail And John	Richardson	Bozeman	MT	We have explored this area and as conservationists believe it deserves protection.

Catherine	O'Kelly	Vacaville	CA	We have to be forever vigilant! Here in California, there are people who want to reopen old gold mines in Nevada County, with a river nearby. What those miners did to the land there 170 years ago is still visible and the scars will never heal!
Alexandra	Laney	Alexandria	VA	We have to stop making the same mistakes. The potential financial gains must be weighed against the rights of the people living on the land and the wellness of the ecosystem
Bonnie	Yohe	Lincoln	NE	WE must be stewards of this precious area! Think carefully and decide wisely please!
E	Mather	San Diego	CA	We must be the protectors of our environment.
Ruth	Bargy	Salamanca	NY	We must do everything we can everywhere we can to save cultural and natural resources. Water is life.
Cathy	Rich	Woodland Park	CO	We must protect as much of the watersheds as possible in our country. Water is a commodity and has to be closely regulated or our planet will be dry earlier than we think. Thank you
Mariana	Mellor	Thousand Oaks	CA	We MUST protect nature more than ever. There is no more room left for squandering nor being careless!!
Tina	Vazquez	Waynesville	NC	We must protect nature!!
Theresa	Bucher	Tarzana	CA	We must protect our waters from contamination. We have too few clean water sources left.
Joseph	Wasserman	West Hartford	CT	We must protect Rapid Creek watershed. Water is our lifeline.
Vinnedge	Lawrence	West Baldwin	ME	We must protect the entire Rapid Creek Watershed, not just the Pactola Reservoir.
Kathy	Lamb	Raleigh	NC	We must protect these public lands at all costs and put people before profit. In addition, preserving these public lands will be a positive step toward environmental justice, which is important to me. As a person of European background, it's important that we take every opportunity to go against the oppressive practices that have cheated indigenous people of land and resources that truly belong to them. We are running out of time to do this.
Rob	Bodner	Portland	OR	We must protect these sacred areas!
Pamela	Kelly	Long Beach	CA	We must put the well-being of others before greed for gold.
Ralph	Baker	New York	NY	We must take the time to understand the environmental impacts that exploration and the mining of gold will have on the river and the local environment. Do the research BEFORE you decide to grant or deny the permit.

Robert	Smith	Clackamas	OR	We NEED a healthy planet!!!!....NOT more pollution/poison/environmental rape just for profit/greed!!!!...PLZ/THX
Tania	Malven	Tucson	AZ	WE NEED CLEAN WATER AND AIR EVERYWHERE!!!!!!!!!!!!
Pat	Burton	Gaithersburg	MD	We need clean water more than we need gold!
Kelley	Dempsey	Frederick	MD	We need clean water not gold!
Grace	Tam	Laguna Hills	CA	We need clean water to live. Without clean water we die quickly. Without a mine we certainly won't die.
Fred	Nadelman	Savannah	GA	WE NEED IT IN SAVANNAH, GA
Elizabeth	Meyers	Hallandale Beach	FL	We need remedies not further destruction.
Judy	Lacinak	Shreveport	LA	We need safe water more than gold!
Gary	Albright	Snohomish	WA	We need to do everything we can to provide clean water to everyone.
Bernadette	Tourtual	Lindenwold	NJ	We need to keep our waterways free and clear of any contaminates. Please keep this in mind as you pursue further investigation of this area!
Laurel	Harris	Rutherford	CA	We need to preserve all fresh water and associated ecosystems in this time of Global Climate Disruption! These areas are invaluable for keeping the planet healthier and cooler!!
Terry	Mcananey	Fairplay	CO	We need to prioritized the protection of water and our other natural resources not only for our own survival, but for the survival of the vast diversity of flora and fauna that we share this planet with before it is too late.
Victoria	Furio	Yonkers	NY	We need to protect ALL of our waters!
Anne	Smith	Delhi	NY	We need to protect all pristine places.
Sara	Bruce	San Jose	CA	We need to protect our most valuable treasures, the ones that belong to all of us.
Maria	LeBlanc	Raleigh	NC	We need to protect our water resources at every turn. It is a crime we can't drink from our lakes and rivers.
Anna	Larsson	Minneapolis	MN	We need to protect the Rapid Creek Watershed and halt gold exploration in the area. Can you imagine living in a rural area and having your only water source permanently polluted because of outside interests? Unconscionable!
Brenda	Fine	Lincoln	NE	We need to protect these resources
Laura	Lind	Manhattan Beach	CA	We need to protect water that clean and clear especially for the Indian population.
Terry	Koslek	Marne	MI	We need to start treating the land we depend on like we actually care about it.

Harold	Dreibelbis	Cincinnati	OH	We need to support the Great Sioux Nation that depends on South Dakota's Rapid Creek Watershed for clean water. Mining negatively impacts the quality of water. That is why I support mining restrictions in all of the watershed.
Renate and Jack	Pealer	Fairfield Township	OH	we need you to protect vital cultural and natural resources located on these public lands!Please protect the watershed around the Pactola Reservoir! This is much more important than gold exploration in this area. Many will benefit from protecting this river. Only a few will benefit from gold exploration. Water that benefits many is more important than gold exploration that will benefit a few financially and will harm many ecologically.
Cindy	Long	Hermosa Beach	CA	We only have Mother Earth to live on and we're killing ourselves by killing Mother Earth and that is absolutely shameful
Abbie	Bernstein	West Hollywood	CA	We only have one environment. It needs to be kept clean.
Debra	Metzger	Irwin	PA	We only have one planet
Lisa	Rooney	Columbus	OH	We seem to be losing more and more water to mining, pollution from run off, pollution from products among many other things. We must do all we can to protect what is left for future generations.
Anna	Haughwout	White Oak	PA	We should know by now that most companies do not care how the land is abused or what pollutants are left to ravage the environment.
Rick	Taylor	Everett	WA	We travel to this area most years to watch birds.
M.	Honer-Orton	Rockville	UT	We want to keep our water clean!
John and Cathy	Thomas	Cary	NC	We're fast approaching the time on our planet and in our country where people will give any amount of gold in exchange for the endless supply of beautiful, clean water we used to have. Please use at least a little foresight to fully protect one of the few remaining places where such water still exists.
Jeannie	Keyes	Renton	WA	We've got to start listening to the pain of Earth herself. If we don't take care of her or her dressings or her inhabitants and find a perfect balance we are all finished. We need to be careful with our planet and all that are here - ALL!
Jean	Hodgins	Ballston Spa	NY	WHAT ARE YOU THINKING??? You, the USFS and the BLM are there to PROTECT our natural resources from contamination. We the People, NEED clean, pure, uncontaminated water to survive! Put yourself and your families as being the recipients of the resulting contaminated water!
Shelley	Ries	Corvallis	OR	what happens to the water happens to the people
Mary	Peterson	Newport	OR	What happens when we're all poisoned? Is it the final extinction?

Brian	O'Shea	Menifee	CA	What is justice
Brandi	Seibel	Bismarck	ND	What is more precious, gold or sustainable living for the habitants, human and animal? WATER IS LIFE!
Leslie	Chain	Youngstown	OH	When all the water's gone, can you drink gold?
Hod	Gray	Lompoc	CA	Who needs more gold?
Julie	Adelson	San Pedro	CA	Why arent you doing this already?!
Peter	Ayres	Naperville	IL	Why do we keep trying to approve such projects? Do not approve Mining, drilling, fracking, laying pipelines anywhere near to water sources. Neither along a stream or river or at the head waters, or any of our great lakes for that matter. We cannot afford the errors and accidents that come with these business's and end up destroying the use of the water for peoples livelihoods for years. Just say no.
Ruth	Hood	Augusta	GA	Why is it that people keep trying to destroy all of our land? Greed! We need to start saying "no" to these people that only think of their bank balances, and couldn't care less about who or what they destroy. Leave our land alone.
Cathleen	Weston	Hauser	ID	WHY NOT???
Ed	Sweisford	Oley	PA	Will the outcome be the same as when Custer said there was gold in the Black Hills?
Ann	Bliss-Pilcher	Jamesville	NY	With literally thousands of other locations for these exploratory mining projects to occur, there is simply no good reason to put the Rapid creek Watershed and Pactola Reservoir at risk. The danger to contamination of the Tribal lands, agricultural and rural lands, and the largest city in South Dakota would be unnecessary and reckless. The damage our government has done to all native peoples of this country, and the disrespect we continue to show them by degrading their land and water against their wishes needs to stop. Let's do the right thing here and withdrawal mineral exploration from around Pactola Reservoir.
Jost	Diederichs	Poway	CA	With so many taxpayer funded clean-ups already, we do not need more extraction projects, and definitely not in sensitive areas.
Kathy	Ruopp	Chicago	IL	Without clean watr there is no health or life.
Greg	Kerns	Federal Way	WA	Yes our population and our temperatures continue to rise water is going to become more and more important. Let's protect this area. The gold mining is not as much of a priority in that spot.
Jill	Hoehlein	Hesperus	CO	YES!!!! We need to support keeping water not only available but also drinkable!!!!
Michael	Marek	Phoenix	AZ	You can't drink sand.

Teresa	Johnson	Colorado Springs	CO	You can't eat or drink gold. In the grand scheme of things it has no real value. It only has a lame fulfillment of some people's greed. Do not destroy more of our Earth to that end.
Marie	Smith	North Canton	OH	You can't drink gold!
Joseph	Fisher	Glen Arm	MD	you must certainly understand that the absolute destruction of natural resources in a gold mining operation must NOT be allowed. CLEAN WATEWR IS MORE PRECIOUS THAN GOLD. I DONT CARE HOW MANY JOBS ARE CREATED OR HOW MANY PEOPLE WE WILLM PREVENT FROM RICHES!!!
Izabela	Wnuk	Itasca	IL	You must protect the Pactola Reservoir Rapid Creek Watershed from mineral withdrawal, it's the only logical thing to do!
Margery	Groten	Poughkeepsie	NY	You must take a more comprehensive approach to protecting the watershed.
